

Los Angeles County  
Department of Regional Planning

*Planning for the Challenges Ahead*

Bruce W. McClendon FAICP  
Director of Planning

December 29, 2008

Honorable Board of Supervisors  
County of Los Angeles  
Kenneth Hahn Hall of Administration, Room 383  
500 West Temple Street  
Los Angeles, California 90012

Dear Supervisors:

**ZONE CHANGE CASE NO. 2006-00004-(5)  
CONDITIONAL USE PERMIT CASE NO. 2006-00051-(5)  
VESTING TENTATIVE TRACT MAP NO. 066202  
PETITIONER: JARRETT GORIN / CENTERPOINT DEVELOPMENT PARTNERS, LLC  
16838 SIERRA HIGHWAY  
CANYON COUNTRY, CA 91351  
SAND CANYON ZONED DISTRICT  
FIFTH SUPERVISORIAL DISTRICT (3-VOTE)**

**IT IS RECOMMENDED THAT THE BOARD AFTER THE PUBLIC HEARING:**

1. Consider the Mitigated Negative Declaration for Zone Change Case No. 2006-00004-(5), Conditional Use Permit Case No. 2006-00051-(5) and Vesting Tentative Tract Map No. 066202, together with any comments received during the public review process, find on the basis of the whole record before the Board that there is no substantial evidence the project with mitigation will have a significant effect on the environment, find that the project has an effect on fish and wildlife services, find that the Mitigated Negative Declaration reflects the independent judgment and analysis of the Board, and adopt the Mitigated Negative Declaration.
2. Instruct County Counsel to prepare the necessary documents to approve Zone Change Case No. 2006-00004-(5), as recommended by the Regional Planning Commission.
3. Instruct County Counsel to prepare the necessary findings to affirm the Regional Planning Commission's approval of Conditional Use Permit Case No. 2006-00051-(5) and Vesting Tentative Tract Map No. 066202.

**PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

- Update the zoning on the subject property to allow the property owner to develop the property with a residential condominium project that is compatible with the existing surrounding uses and consistent with the Santa Clarita Valley Area Plan.
- Approve conditions to ensure development of the subject property will be consistent with the goals and policies of the Santa Clarita Valley Area Plan.

**Implementation of Strategic Plan Goals**

The zone change, conditional use permit and vesting tentative tract map promote the County's vision for improving the quality of life in Los Angeles County. The project allows for the provision of one multi-family residential lot with 31 detached condominium units in a transitional area between semi-truck storage yard and single-family residences.

The proposed zone change, conditional use permit and vesting tentative tract map promote the goal of fiscal responsibility as the proposed residential development will increase the County's revenue base and strengthen the County's fiscal capacity.

**FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

On November 5, 2008, the Regional Planning Commission ("Commission") conducted concurrent public hearings on Zone Change Case No. 2006-00004-(5), Conditional Use Permit Case No. 2006-00051-(5) and Vesting Tentative Tract Map No. 066202. The requests before the Commission were: 1). A zone change from M-1 (Light Manufacturing) to RPD-10,000-4.1U (Residential Planned Development-10,000 Square Feet Minimum Required Lot Area-4.1 Dwelling Units per Net Acre); 2) a conditional use permit to allow a planned residential development in compliance with RPD provisions, including modification to building separation from 10 feet to 7.8 feet, and non-urban and urban hillside management area requirements; and 3) a vesting tentative tract map to create one multi-family residential lot with 31 new detached condominium units. The Commission voted 5-0 at its November 5, 2008 meeting to adopt the Mitigated Negative Declaration and Mitigation Monitoring Program, and recommend approval of the requested zone change,

as well as approve the conditional use permit and vesting tentative tract map.

Pursuant to subsection C of Section 21.56.010 and subsection B.2 of Section 22.60.230 of the Los Angeles County Code ("County Code"), the conditional use permit and vesting tentative tract map are deemed to be called for review/appealed by your Board and shall be considered concurrently with the recommended zone change. A public hearing is required pursuant to Sections 22.16.200 and 22.60.240 of the County Code and Sections 65856 and 66452.5 of the Government Code. Notice of the hearing must be given pursuant to the procedures set forth in Section 22.60.174 of the County Code. These procedures exceed the minimum standards of Government Code Sections 6061, 65090 and 65856 relating to notice of public hearing.

#### **ENVIRONMENTAL DOCUMENTATION**

An Initial Study was prepared for this project in compliance with the California Environmental Quality Act ("CEQA") (Public Resources Code Section 21000 et.seq.), the State CEQA Guidelines, and the environmental document reporting procedures and guidelines of the County of Los Angeles. The Initial Study identified potentially significant effects of the project on noise, air quality, biota, drainage and grading, hazardous waste, recycling, underground storage tanks, sewer and emergency. Prior to the release of the proposed Mitigated Negative Declaration and Initial Study for public review, the applicant made or agreed to revisions in the project that would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur.

Based on the Mitigated Negative Declaration, adoption of the zone change, and approval of the conditional use permit and vesting tentative tract map will not have a significant effect on the environment with implementation of the proposed mitigation measures in the Mitigation Monitoring Program.

#### **IMPACT ON CURRENT SERVICES OR PROJECTS**

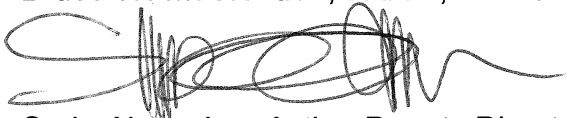

Action on the proposed zone change, conditional use permit and vesting tentative tract map is not anticipated to have a negative impact on current services.

**A RESOLUTION OF THE REGIONAL PLANNING COMMISSION  
COUNTY OF LOS ANGELES  
RELATING TO ZONE CHANGE CASE NO. 2006-00004-(5)**

**WHEREAS**, the Regional Planning Commission of the County of Los Angeles ("Commission") conducted a public hearing regarding Zone Change Case No. 2006-00004-(5), Vesting Tentative Tract Map No. 066202 and Conditional Use Permit Case No. 2006-00051-(5) on November 5, 2008; and

**WHEREAS**, the Regional Planning Commission finds as follows:

1. The subject site is located at 16838 Sierra Highway in the Sand Canyon Zoned District.
2. The irregularly-shaped property is 8.2 gross acres (7.6 net acres) in size with slightly sloping to steep topography. Based on the applicant's submitted slope density analysis, 5.4 gross acres lie within the zero to 25 percent category, 1.2 gross acres lie within 25 to 50 percent category, and 1.6 gross acres are within the over 50 percent slope category.
3. Access to the proposed development is provided by a 36-foot wide offsite access easement from Quinn Drive, a 60-foot wide public street.
4. Zone Change Case No. 2006-00004-(5) is a request to authorize change of zone from M-1 (Light Manufacturing) to RPD-10,000-4.1U (Residential Planned Development – 10,000 Square Feet Minimum Required Lot Area – 4.1 Dwelling Units per Net Acre). The RPD designation will allow the applicant with a conditional use permit to propose 31 dwelling units and density of 4.1 dwelling units per net acre. It is the intent of planned residential development to promote residential amenities beyond those expected under conventional development, to achieve greater flexibility in design, to encourage well-planned neighborhoods through creative and imaginative planning as a unit, and to provide for appropriate use of land which is sufficiently unique in its physical characteristics or other circumstances to warrant special methods of development. As applied in this case, the conditional use permit will restrict the development of the rezoned site to the proposed residential development as shown on the site plan marked "Exhibit A."
5. Vesting Tentative Tract Map No. 066202 is a related request to create one multi-family residential lot with 31 new detached condominium units on 8.2 gross acres.
6. Conditional Use Permit Case No. 2006-00051-(5) is a related request to allow a planned residential development in compliance with RPD provisions including modification to building separation from 10 feet to 7.8 feet, and urban and non-urban hillside management area requirements.

7. Surrounding zoning includes RPD-10,000-1.95U (Residential Planned Development-10,000 Square Feet Minimum Required Lot Area-1.95 Dwelling Units per Net Acre) to the north, east and south. R-3 (Limited Multiple Residential-5,000 Square Feet Minimum Required Lot Area) and C-3 (Unlimited Commercial) exist to the west.
8. The subject property consists of one lot currently used as a semi-truck storage yard. Surrounding uses include single-family residences and vacant properties to the north and east, single-family residences and industrial properties to the south, and single-family residences and commercial properties to the west.
9. The project is consistent with the proposed RPD zoning classification. Detached units are permitted in the RPD zone pursuant to Section 22.20.460.B.3.a of the Los Angeles County Code ("County Code"). The proposed density of 31 dwelling units is consistent with the maximum 31 dwelling units that can be accommodated by the RPD-10,000-4.1U zoning. The applicant has requested a conditional use permit ("CUP") to allow a planned residential development in compliance with RPD provisions and includes a request for modification to the building separation distance from 10 feet to 7.8 feet, and hillside management area requirements.
10. Approval of the vesting tentative tract map and conditional use permit will not become effective unless and until the Los Angeles County Board of Supervisors ("Board of Supervisors") adopts an ordinance effecting the proposed change of zone, and such ordinance has become effective.
11. The applicant's site plan, labeled as Exhibit "A", depicts a residential development of one multi-family lot with 31 detached condominium units on approximately 7.6 net acres. The residential units are arranged along the two main internal private driveways 34 feet to 36 feet wide. Of the 31 detached condominiums units, individual units range in size from 1,615 to 2,687 square feet and offered as two-story units. The units reach a maximum height of 29 feet and 7 inches. Building separation is a minimum of 7.8 feet, less than the required 10 feet. The 30 guest parking spaces (28 standard parking spaces) to be provided (minimum eight required) will be located along both internal private driveways. To ensure adequate access for the Los Angeles County Fire Department ("Fire Department"), the applicant is proposing a 20-foot wide emergency access off of Sierra Highway with a five-foot high access gate that meets all Fire Department requirements for emergency access. Two required parking spaces per unit yields a minimum required of 62 covered spaces for the project. Of the total parking provided within the development, 62 parking spaces are provided within two-car garages. Grading consists of total 97,543 cubic yards of cut and fill grading (38,524 cut, 59,019 fill) with an additional import of 20,495 cubic yards of material.

12. The project is required to provide 32, 208 square feet (70 percent) of open space within the hillside management area and is providing 46,011 (100 percent) of open space ,and is required to provide 71,373 square feet (25 percent) of open space within the urban land use designation and is providing 79,641 square feet (28 percent) of open space. The proposed RPD zoning requires that the project provide 30 percent of net area (2.0 acres) of open space and is providing 2.9 acres (43 percent) of open space.
13. The property is depicted within the Hillside Management (HM) and Urban 2 (U2- 3.3 to 6.6 Dwelling Units per Net Acre) land use categories on the Land Use Policy Map of the Santa Clarita Valley Area Plan ("Plan"), a component of the Los Angeles Countywide General Plan ("General Plan"). Based on the applicant's submitted slope density analysis, which provides different densities for the zero to 25 percent, 25 to 50 percent, and over 50 percent slope categories, the subject property yields a maximum of 44 dwelling units. A large portion of the project site (6.5 acres) lies within the Urban 2 land use category and per the applicant's slope density analysis, the mid-point density would be 27 dwelling units and the maximum density under the Urban 2 category would be 43 dwelling units. The property depicted within the HM category encompasses 1.05 acres and would allow a maximum of 0.6 dwelling units. The project proposes 31 dwelling units which is consistent with the maximum density. The U2 category of the Plan identifies areas particularly suitable for detached housing units and is intended to maintain the character of existing low density residential neighborhoods with densities up to 6.6 units per net acre.
14. The project is required to provide 32,208 square feet (70 percent) of open space within the HM area and provides 46,011 square feet (100 percent) of open space. The project also required to provide 71,373 square feet (25 percent) of open space within the U2 land use designation, and provides 79,641 square feet (28 percent) of open space for a project total of 2.9 acres (38 percent) of open space.
15. The project site is currently zoned M-1 which became effective on August 23, 1957, following the adoption of Ordinance Number 7191 creating the Sand Canyon Zoned District. The project proposes a zone change to RPD-10,000-4.1U.
16. Correspondence was received on the proposed development from the City of Santa Clarita ("City") concerning impacts to public parks and sewers. The City requested the addition of a condition that required the applicant to submit a revised sewer-area study prior to the recordation of the final map. The City also wrote that the applicant would be paying Quimby Fees to the Los Angeles County Department of Parks and Recreation for construction of park facilities not planned within close proximity to the project site, forcing future residents to use City parks and further impacting their facilities negatively.

17. During the November 5, 2008 public hearing, the Commission heard a presentation from staff as well as testimony from the applicant and a representative of the City regarding the proposed development.
18. During the November 5, 2008 public hearing, staff stated that the proposed development was consistent with the proposed zoning and is providing a total of 2.9 acres (38 percent) of open space. The project also complies with the described proposed RPD zoning that requires the project provide 30 percent of net area (2.3 acres) as open space.
19. During the November 5, 2008 public hearing, staff stated the correspondence received from the City. The Commission inquired from the representative of the Los Angeles County Department of Public Works ("Public Works") if the sewer area condition was necessary. The Public Works representative stated they had worked with City staff and did not object to the added findings language for the sewer area study.
20. During the November 5, 2008 public hearing the Commission asked County Counsel if they were aware of any agreements to share Quimby Fees for County parks between the County of Los Angeles and other jurisdictions whose parks were impacted by residents of the unincorporated areas who had no parks. County Counsel stated that they were not aware of any agreements but would research the issue.
21. During the November 5, 2008 public hearing, the applicant stated that he had met with the City and agreed to the sewer-area condition, and recorded documents agreeing to the sewer-area conditions.
22. During the November 5, 2008 public hearing, the Commission requested that staff add conditions requiring all concrete drainage structures to be constructed in earth tone colors; that the applicant record a covenant or provide in the CC&R's full disclosure to prospective purchasers of homes that the development is located adjacent to existing M-1 zone where semi-truck repair currently exist and other industrial uses creating noxious noises may exist in the future.
23. On November 5, 2008, after taking all testimony, the Commission closed the public hearing and adopted the Mitigated Negative Declaration and Mitigation Monitoring Program, and approved Vesting Tentative Tract Map No. 066202 and Conditional Use Permit Case No. 2006-00051-(5), and recommended adoption of Zone Change Case No. 2006-00004-(5) to the Los Angeles County Board of Supervisors.

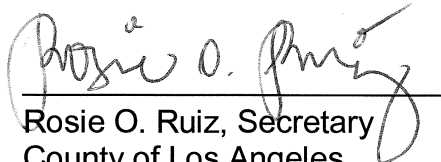

would occur. The Initial Study and project revisions showed that there is no substantial evidence, in light of the whole record before the Commission, that the project as revised may have a significant effect on the environment. Based on the Initial Study and project revisions, a Mitigated Negative Declaration has been prepared for this project. Conditions or changes in the proposed project are necessary in order to ensure the proposed project will not have a significant effect on the environment, and such conditions or changes have been included in the Mitigation Monitoring Program.

33. After consideration of the attached Mitigated Negative Declaration and Mitigation Monitoring Program together with any comments received during the public review process, the Commission finds on the basis of the whole record before the Commission that there is no substantial evidence the project as revised will have a significant effect on the environment, finds the Mitigated Negative Declaration reflects the independent judgment and analysis of the Commission, and adopts the Mitigated Negative Declaration and attached Mitigation Monitoring Program.
34. This project does not have "no effect" on fish and wildlife resources. Therefore, the project is not exempt from California Department of Fish and Game fees pursuant to Section 711.4 of the California Fish and Game Code.
35. The location of the documents and other materials constituting the record of proceedings upon which the Commission's decision is based in this matter is the Department of Regional Planning ("Regional Planning"), 13th Floor, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. The custodian of such documents and materials shall be the Section Head of the Land Divisions Section, Regional Planning.

**NOW, THEREFORE BE IT RESOLVED** that the Regional Planning Commission of the County of Los Angeles recommends that the Los Angeles County Board of Supervisors:

1. Hold a public hearing to consider the above recommended zone change; and
2. Certify that the Mitigated Negative Declaration has been completed in compliance with CEQA, and the State and County Guidelines related thereto and reflects the independent judgment of the Board of Supervisors; and
3. Approve the Mitigated Negative Declaration prepared for the project and certify that it has reviewed and considered the information contained therein; and
4. Adopt Zone Change Case No. 2006-00004-(5) changing the zoning classification on the property.

I hereby certify that the foregoing was adopted by a majority of the voting members of the Regional Planning Commission of the County of Los Angeles on November 5, 2008.

**FINDINGS OF THE REGIONAL PLANNING COMMISSION  
COUNTY OF LOS ANGELES  
FOR CONDITIONAL USE PERMIT CASE NO. 2006-00051-(5)**

1. The Los Angeles County Regional Planning Commission ("Commission") conducted a noticed public hearing in the matter of Conditional Use Permit Case No. 2006-00051-(5) on November 5, 2008. Conditional Use Permit Case No. 2006-00051-(5) was heard concurrently with Zone Change Case No. 2006-00004-(5) and Vesting Tentative Tract Map No. 066202.
2. The applicant, Centerpoint Development Partners, LLC representing 16838 Sierra Highway LLC, is proposing a condominium development of 31 detached units with two covered parking spaces per unit and approximately 2.9 net acres (38 percent of the subject property) of open space is provided within the development as undisturbed and disturbed open space.
3. A conditional use permit ("CUP") is a request to allow a request to allow a planned residential development in compliance with RPD provisions including modification to building separation from 10 feet to 7.8 feet, and urban and non-urban hillside management area requirements.
4. The subject site is located at 16838 Sierra Highway in the Sand Canyon Zoned District.
5. The irregularly-shaped property is 8.2 gross acres (7.6 net acres) in size with slightly sloping to steep topography. Based on the applicant's submitted slope density analysis, 5.4 gross acres lie within the zero to 25 percent category, 1.2 gross acres lie within 25 to 50 percent category, and 1.6 gross acres are within the over 50 percent slope category.
6. Access to the proposed development is provided by a 36-foot wide offsite access easement from Quinn Drive, a 60-foot wide public street.
7. Zone Change Case No. 2006-00004-(5) is a related request to authorize change of zone from M-1 (Light Manufacturing) to RPD-10,000-4.1U (Residential Planned Development – 10,000 Square Feet Minimum Required Lot Area – 4.1 Dwelling Units per Net Acre). The RPD designation will allow the applicant with a conditional use permit to propose 31 dwelling units and density of 4.1 dwelling units per net acre. It is the intent of planned residential development to promote residential amenities beyond those expected under conventional development, to achieve greater flexibility in design, to encourage well-planned neighborhoods through creative and imaginative planning as a unit, and to provide for appropriate use of land which is sufficiently unique in its physical characteristics or other circumstances to warrant special methods of development. As applied in this case,

the conditional use permit will restrict the development of the rezoned site to the proposed residential development as shown on the site plan marked "Exhibit A."

8. Vesting Tentative Tract Map No. 066202 is a related request to create one multi-family residential lot with 31 new detached condominium units on 8.2 gross acres.
9. Surrounding zoning includes RPD-10,000-1.95U (Residential Planned Development-10,000 Square Feet Minimum Required Lot Area-1.95 Dwelling Units per Net Acre) to the north, east and south. R-3 (Limited Multiple Residential-5,000 Square Feet Minimum Required Lot Area) and C-3 (Unlimited Commercial) exist to the west.
10. The subject property consists of one lot currently used as a semi-truck storage yard. Surrounding uses include single-family residences and vacant properties to the north and east, single-family residences and industrial properties to the south, and single-family residences and commercial properties to the west.
11. The project is consistent with the proposed RPD zoning classification. Detached units are permitted in the RPD zone pursuant to Section 22.20.460.B.3.a of the Los Angeles County Code ("County Code"). The proposed density of 31 dwelling units is consistent with the maximum 31 dwelling units that can be accommodated by the RPD-10,000-4.1U zoning. The applicant has requested a conditional use permit ("CUP") to allow a planned residential development in compliance with RPD provisions and includes a request for modification to the building separation distance from 10 feet to 7.8 feet, and hillside management area requirements.
12. Approval of the vesting tentative tract map and conditional use permit will not become effective unless and until the Los Angeles County Board of Supervisors ("Board of Supervisors") adopts an ordinance effecting the proposed change of zone, and such ordinance has become effective.
13. The applicant's site plan, labeled as Exhibit "A", depicts a residential development of one multi-family lot with 31 detached condominium units on approximately 7.6 net acres. The residential units are arranged along the two main internal private driveways 34 feet to 36 feet wide. Of the 31 detached condominiums units, individual units range in size from 1,615 to 2,687 square feet and offered as two-story units. The units reach a maximum height of 29 feet and 7 inches. Building separation is a minimum of 7.8 feet, less than the required 10 feet. The 30 guest parking spaces (28 standard parking spaces) to be provided (minimum eight required) will be located along both internal private driveways. To ensure adequate access for the Los Angeles County Fire Department ("Fire Department"), the applicant is proposing a 20-foot wide emergency access off of Sierra Highway with a five-foot high access gate that meets all Fire Department requirements for

Findings

emergency access. Two required parking spaces per unit yields a minimum required of 62 covered spaces for the project. Of the total parking provided within the development, 62 parking spaces are provided within two-car garages. Grading consists of total 97,543 cubic yards of cut and fill grading (38,524 cut, 59,019 fill) with an additional import of 20,495 cubic yards of material.

14. The project is required to provide 32, 208 square feet (70 percent) of open space within the hillside management area and is providing 46,011 (100 percent) of open space ,and is required to provide 71,373 square feet (25 percent) of open space within the urban land use designation and is providing 79,641 square feet (28 percent) of open space. The proposed RPD zoning requires that the project provide 30 percent of net area (2.0 acres) of open space and is providing 2.9 acres (43 percent) of open space.
15. The property is depicted within the within the Hillside Management (HM) and Urban 2 (U2-3.3 to 6.6 Dwelling Units per Net Acre) land use categories on the Land Use Policy Map of the Santa Clarita Valley Area Plan ("Plan"), a component of the Los Angeles Countywide General Plan ("General Plan"). Based on the applicant's submitted slope density analysis, which provides different densities for the zero to 25 percent, 25 to 50 percent, and over 50 percent slope categories, the subject property yields a maximum of 44 dwelling units. A large portion of the project site (6.5 acres) lies within the Urban 2 land use category and per the applicant's slope density analysis, the mid-point density would be 27 dwelling units and the maximum density under the Urban 2 category would be 43 dwelling units. The property depicted within the HM category encompasses 1.05 acres and would allow a maximum of 0.6 dwelling units. The project proposes 31 dwelling units which is consistent with the maximum density. The U2 category of the Plan identifies areas particularly suitable for detached housing units and is intended to maintain the character of existing low density residential neighborhoods with densities up to 6.6 units per net acre.
16. The project is required to provide 32, 208 square feet (70 percent) of open space within the hillside management area and is providing 46,011 (100 percent) of open space ,and is required to provide 71,373 square feet (25 percent) of open space within the urban land use designation and is providing 79,641 square feet (28 percent) of open space. The proposed RPD zoning requires that the project provide 30 percent of net area (2.0 acres) of open space and is providing 2.9 acres (43 percent) of open space.
17. The project site is currently zoned M-1 which became effective on August 23, 1957, following the adoption of Ordinance Number 7191 creating the Sand Canyon Zoned District. The project proposes a zone change to RPD-10,000-4.1U.

18. Correspondence was received on the proposed development from the City of Santa Clarita ("City") concerning impacts to public parks and sewers. The City requested the addition of a condition that required the applicant to submit a revised sewer-area study prior to the recordation of the final map. The City also wrote that the applicant would be paying Quimby Fees to the Los Angeles County Department of Parks and Recreation for construction of park facilities not planned within close proximity to the project site, forcing future residents to use City parks and further impacting their facilities negatively.
19. During the November 5, 2008 public hearing public hearing, the Commission heard a presentation from staff as well as testimony from the applicant and a representative of the City regarding the proposed development.
20. During the November 5, 2008 public hearing, staff stated that the proposed development was consistent with the proposed zoning and is providing a total of 2.9 acres (38 percent) of open space. The project also complies with the described proposed RPD zoning that requires the project provide 30 percent of net area (2.3 acres) as open space.
21. During the November 5, 2008 public hearing, staff stated the correspondence received from the City. The Commission inquired from the representative of the Los Angeles County Department of Public Works ("Public Works") if the sewer area condition was necessary. The Public Works representative stated they had worked with City staff and did not object to the added findings language for the sewer area study.
22. During the November 5, 2008 public hearing hearing the Commission asked County Counsel if they were aware of any agreements to share Quimby Fees for County parks between the County of Los Angeles and other jurisdictions whose parks were impacted by residents of the unincorporated areas who had no parks. County Counsel stated that they were not aware of any agreements but would research the issue.
23. During the November 5, 2008 public hearing, the applicant stated that he had met with the City and agreed to the sewer-area condition, and recorded documents agreeing to the sewer-area conditions.
24. During the November 5, 2008 public hearing, the Commission requested that staff add conditions requiring all concrete drainage structures to be constructed in earth tone colors; that the applicant record a covenant or provide in the CC&R's full disclosure to prospective purchasers of homes that the development is located adjacent to existing M-1 zone were semi-truck repair currently exist and other industrial uses creating noxious noises may exist in the future.

25. On November 5, 2008, after taking all testimony, the Commission closed the public hearing and adopted the Mitigated Negative Declaration and Mitigation Monitoring Program, and approved Vesting Tentative Tract Map No. 066202 and Conditional Use Permit Case No. 2006-00051-(5), and recommended adoption of Zone Change Case No. 2006-00004-(5) to the Los Angeles County Board of Supervisors.
26. As a condition of approval of this grant, the permittee shall be required to comply with the development standards of the RPD zone pursuant to Sections 22.20.460. A through 22.20.460.B.13.C of the County Code.
27. An Initial Study was prepared for this project in compliance with the California Environmental Quality Act (Public Resources Code Section 21000 et. seq.) ("CEQA"), the State CEQA Guidelines, and the Environmental Document Reporting Procedures and Guidelines of the County of Los Angeles. The Initial Study identified potentially significant effects of the project on Noise, Air Quality, Biota, Drainage and Grading, Hazardous Waste, Recycling, Underground Storage Tanks, Sewer, Emergency Services and Library Mitigation Fees. Prior to the release of the proposed Mitigated Negative Declaration and Initial Study for public review, the applicant made or agreed to revisions in the project that would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur. The Initial Study and project revisions showed that there is no substantial evidence, in light of the whole record before the Commission, that the project as revised may have a significant effect on the environment. Based on the Initial Study and project revisions, a Mitigated Negative Declaration has been prepared for this project. Conditions or changes in the proposed project are necessary in order to ensure the proposed project will not have a significant effect on the environment, and such conditions or changes have been included in the Mitigation Monitoring Program.
28. After consideration of the attached Mitigated Negative Declaration and Mitigation Monitoring Program together with any comments received during the public review process, the Commission finds on the basis of the whole record before the Commission that there is no substantial evidence the project as revised will have a significant effect on the environment, finds the Mitigated Negative Declaration reflects the independent judgment and analysis of the Commission, and adopts the Mitigated Negative Declaration and attached Mitigation Monitoring Program.
29. This project does not have "no effect" on fish and wildlife resources. Therefore, the project is not exempt from California Department of Fish and Game fees pursuant to Section 711.4 of the California Fish and Game Code.

30. Approval of this grant is conditioned on the permittee's compliance with the attached conditions of approval as well as the conditions of approval for Vesting Tentative Tract Map No. 066202 and the Mitigation Monitoring Program.
31. In approving said open space, the Commission shall give consideration to the project to be developed, the characteristics of such open space, the manner in which the open space is to be improved and maintained, and such other information as the Commission deems pertinent.
32. The applicant has demonstrated the suitability of the subject property for the proposed use. Establishment of the proposed use at such location is in conformity with good zoning practice. Compliance with the conditions of approval will ensure compatibility with surrounding land uses and consistency with all applicable General Plan policies.
33. The location of the documents and other materials constituting the record of proceedings upon which the Commission's decision is based in this matter is the Department of Regional Planning ("Regional Planning"), 13th Floor, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. The custodian of such documents and materials shall be the Section Head of the Land Divisions Section, Regional Planning.

**BASED ON THE FOREGOING, THE REGIONAL PLANNING COMMISSION  
CONCLUDES:**

- A. That the proposed use with the attached conditions and restrictions will be consistent with the adopted General Plan;
- B. With the attached conditions and restrictions, that the requested use at the proposed location will not adversely affect the health, peace, comfort, or welfare of persons residing or working in the surrounding area, will not be materially detrimental to the use, enjoyment, or valuation of property of other persons located in the vicinity of the site, and will not jeopardize, endanger, or otherwise constitute a menace to the public health, safety or general welfare;
- C. That the proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping and other development features prescribed in Title 22 of the County Code, or as is otherwise required in order to integrate said use with the uses in the surrounding area;
- D. That the proposed site is adequately served by highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use

would generate, and by other public or private service facilities as are required;

- E. That the plan complies with the intent of planned residential development to promote residential amenities beyond those expected under conventional development, to achieve greater flexibility in design, to encourage well-planned neighborhoods through creative and imaginative planning as a unit, and to provide for appropriate use of land which is sufficiently unique in its physical characteristics or other circumstances to warrant special methods of development. In implementing planned development, it is further declared the purpose of this section to reduce developmental problems in hillside areas and to preserve areas of natural scenic beauty through the encouragement of integrated planning, integrated design and unified control of development, and shall be subject to all of the provisions contained within Section 22.20.460. B of the County Code;
- F. That the proposed project is located and designed so as to protect the safety of current and future community residents, and will not create significant threats to life and/or property due to the presence of geologic, seismic, slope instability, fire, flood, mud flow, or erosion hazard;
- G. That the proposed project is compatible with the natural, biotic, cultural, scenic and open space resources of the area;
- H. That the proposed project is conveniently served by (or provides) neighborhood shopping and commercial facilities, can be provided with essential public services without imposing undue costs on the total community, and is consistent with the objectives and policies of the General Plan;
- I. That the proposed development demonstrates creative and imaginative design, resulting in a visual quality that will complement community character and benefit current and future community residents.

**THEREFORE, THE REGIONAL PLANNING COMMISSION:**

- 1. Adopts the Mitigated Negative Declaration and certifies that it has been completed in compliance with CEQA and the State and County guidelines related thereto.
- 2. Approves Conditional Use Permit Case No. 2006-00051-(5) subject to the attached conditions.

**DEPARTMENT OF REGIONAL PLANNING**

**CONDITIONAL USE PERMIT CASE NO. 2006-00051-(5) Exhibit "A" Date: 2-5-2008**

**CONDITIONS:**

1. This grant authorizes the use of the 8.2 gross acre subject property for a residential planned development of a maximum total of 31 detached residential condominium units on one multi-family lot, as depicted on the approved Exhibit "A", subject to all of the following conditions of approval.
2. Unless otherwise apparent from the context, the term "permittee" shall include the applicant and any other person, corporation, or entity making use of this grant.
3. This grant shall not be effective for any purpose until:
  - a. The permittee, and the owner of the subject property if other than the permittee, have filed at the office of the Los Angeles County Department of Regional Planning ("Regional Planning") their affidavit stating that they are aware of, and agree to accept, all the conditions of this grant and that the conditions have been recorded as required by Condition No. 6, and until all required monies have been paid pursuant to Condition Nos. 8 and 10; and
  - b. An ordinance changing the zoning of the property from M-1 (Light Manufacturing) to RPD-10,000-4.1U (Residential Planned Development-10,000 Square Feet Minimum Required Lot Area - 4.1 Dwelling Units per Net Acre), as recommended in Zone Change Case No. 2006-00004-(5), has been adopted by the Board and has become effective.
4. If any provision of this grant is held or declared to be invalid, the permit shall be void and the privileges granted hereunder shall lapse.
5. Notice is hereby given that any person violating a provision of this grant is guilty of a misdemeanor. Notice is further given that the Los Angeles County Regional Planning Commission or Los Angeles County Hearing Officer may, after conducting a public hearing, revoke or modify this grant, if it finds that these conditions have been violated or that this grant has been exercised so as to be detrimental to the public health or safety or so as to be a nuisance.
6. Prior to the use of this grant, the terms and conditions of the grant shall be recorded in the office of the Los Angeles County Recorder. In addition, upon any transfer or lease of the subject property during the term of this grant, the permittee shall promptly provide a copy of the grant and its terms and conditions to the transferee or lessee, as applicable, of the subject property.
7. If inspections are required to ensure compliance with the conditions of this grant, or if any inspection discloses that the property is being used in violation of any

Conditions

- condition of this grant, the permittee shall be financially responsible and shall reimburse Regional Planning for all inspections and for any enforcement efforts necessary to bring the subject property into compliance. Inspections shall be made to ensure compliance with the conditions of this grant as well as adherence to development in accordance with the approved site plan on file. The amount charged for inspections shall be the amount equal to the recovery cost at the time of payment (currently \$150.00 per inspection).
8. Within five days of the approval date of this grant, the permittee shall remit processing fees payable to the County in connection with the filing and posting of a Notice of Determination in compliance with Section 21152 of the Public Resources Code for the proposed project, which includes Zone Change Case No. 2006-00004-(5), Vesting Tentative Tract Map No. 066202 and Conditional Use Permit Case No. 2006-00051-(5). The project does not have "no effect" in its effect on fish and wildlife and in order to defray the cost of wildlife protection and management, the permittee is responsible for the payment of fees associated with the Certificate of Fee Exemption established by the California Department of Fish and Game pursuant to Section 711.4 of the Fish and Game Code. The current fee amount is **\$1926.75**. No land use project subject to this requirement is final, vested or operative until the fee is paid.
  9. Record a covenant with Regional Planning agreeing to comply with the required environmental mitigation measures. Prior to recordation, submit a copy of the draft covenant to the Director of Regional Planning ("Director of Planning") for approval.
  10. Within 30 days of project approval, the permittee shall deposit the sum of **\$3,000.00** with Regional Planning to defray the cost of reviewing the permittee's reports and verifying compliance with the Mitigation Monitoring Program. The permittee shall retain the services of a qualified Environmental/Mitigation Monitoring Consultant, subject to the approval of the Director of Planning, to ensure that all applicable mitigation measures are implemented and reported in the required Mitigation Monitoring Program.
  11. The mitigation measures set forth in the Mitigated Negative Declaration for the project are incorporated by this reference and made conditions of this permit, and the permittee shall comply with the attached Mitigation Monitoring Program. As a means of ensuring the effectiveness of the mitigation measures, the permittee shall submit annual mitigation monitoring reports to the Director of Planning for approval, until such time as all mitigation measures have been implemented and completed. Additional reports shall be submitted as required by the Director of Planning.
  12. The permittee shall defend, indemnify and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void or annul this permit approval, which action is brought within the applicable time period of Government Code Section 65009 or any other applicable limitation period. The County shall

**Conditions**

notify the permittee of any claim, action or proceeding and the County shall reasonably cooperate in the defense.

13. In the event that any claim, action, or proceeding as described above is filed against the County, the permittee shall within 10 days of the filing pay Regional Planning an initial deposit of \$5,000.00 from which actual costs shall be billed and deducted for the purpose of defraying the expense involved in the department's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to the permittee or permittee's counsel. The permittee shall also pay the following supplemental deposits, from which actual costs shall be billed and deducted:
  - a. If during the litigation process, actual costs incurred reach 80 percent of the amount of deposit, the permittee shall deposit additional funds sufficient to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation; and
  - b. At the sole discretion of the permittee, the amount of an initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by the permittee in accordance with Section 2.170.010 of the Los Angeles County Code ("County Code").

14. This grant shall expire unless used within two years after the recordation of the final map for Vesting Tentative Tract Map No. 066202. In the event that Vesting Tentative Tract Map No. 066202 should expire without the recordation of a final map, this grant shall terminate upon the expiration of the tentative map. Entitlement to the use of the property thereafter shall be subject to the regulations then in effect.
15. No grading permit shall be issued prior to final map recordation, unless otherwise permitted by Regional Planning.
16. The subject property shall be graded, developed and maintained in substantial compliance with the approved vesting tentative tract map. An amended or revised vesting tentative tract map approved for Vesting Tentative Tract Map No. 066202 may, at the discretion of the Director of Planning constitute a revised Exhibit "A." All revised plans require the written authorization of the property owner.
17. All development shall comply with the requirements of Title 22 of the County Code (Zoning Ordinance) and of the specific zoning of the subject property unless specifically modified by this grant, as set forth in these conditions, including the approved Exhibit "A," or a revised Exhibit "A" approved by the Director of Planning.

**Conditions**

18. Submit a copy of the project Covenants, Conditions and Restrictions ("CC&Rs") and/or maintenance agreements and covenants to Regional Planning for review and approval.
19. Record a covenant that provides full disclosure to prospective purchasers of the homes that the development is located adjacent to existing industrial zoning (M-1) with semi-truck repair and storage uses to the south permitted by such zoning. Submit the draft covenant for review and approval prior to recordation.
20. The development of the subject property shall comply with all requirements and conditions approved for Vesting Tentative Tract Map No. 066202.
21. The applicant shall provide not less than 2.9 acres of open space representing 1.05 acres (100 percent) open space area for nonurban designated areas and 1.8 acres (28 percent) open space area for urban designated areas of the project site consisting of undisturbed and disturbed open space, as depicted on the Open Space Exhibit, stamped Exhibit "B".
22. No structure shall exceed 29'-7" feet in height, except for chimneys and rooftop antennas. Prior to any issuance of any building permit, a site plan including exterior elevations and major architectural features shall be submitted to and approved by the Director of Planning, as a revised Exhibit "A," to ensure compliance.
23. All concrete drainage structures in this proposed development shall use only earth tone colors.
24. A minimum of 93 (required and guests) automobile parking spaces, as depicted on the approved Exhibit "A" (dated February 5, 2008) or on an approved revised Exhibit "A", shall be provided and continuously maintained on the subject property, developed to the specifications listed in Section 22.52.1060 of the County Code. There shall be at least two covered parking spaces designated for each dwelling unit for a total of 62 spaces. There shall also be at least 31 guest parking spaces distributed throughout the project site as depicted on the approved Exhibit "A" (dated February 5, 2008) or an approved revised Exhibit "A". The required parking spaces shall be continuously available for vehicular parking only and shall not be used for storage, automobile repair, or any other unauthorized use. Continual availability and maintenance of required parking spaces shall be provided for in the CC&Rs.
25. Pursuant to Chapter 22.72 of the County Code, the subdivider or his successor in interest shall pay a fee to the Los Angeles County Librarian prior to issuance of any building permit, as this project's contribution to mitigating impacts on the library system in the Santa Clarita Valley Planning Area, in the amount required by Chapter 22.72 at the time of payment and provide proof of payment to the Department of Regional Planning. The current fee amount is \$790.00 per dwelling

**Conditions**

- unit (\$790.00 X 31 dwelling units = \$24,490.00). The Fee is subject to adjustment as provided for in applicable local and State law. The subdivider may contact the County Librarian at (562) 940-8450 regarding payment of fees.
26. Three copies of a landscape plan which may be incorporated into a revised site plan shall be submitted and approved by the Director of Planning prior to issuance of a grading permit and/or building permit.
  27. All utilities shall be placed underground. Prior to the issuance of any building permit, the permittee shall provide evidence that contractual arrangements have been made with the local utilities to install underground all new facilities necessary to furnish services in the proposed development.
  28. All structures shall comply with the requirements of the Division of Building and Safety of the Los Angeles County Department of Public Works ("Public Works").
  29. Detonation of explosives or any other blasting device or material is prohibited unless required permits have been obtained and adjacent property owners have been notified.
  30. All grading and construction on the subject property and appurtenant activities, including engine warm-up, shall be restricted to the hours between 7:00 a.m. and 6:00 p.m. ,Saturdays 8:00 a.m. to 5:00 p.m., no Sunday or holiday operations are permitted. All stationary construction noise sources shall be sheltered or enclosed to minimize adverse effect on nearby residences and neighborhoods. Generator and pneumatic compressors shall be noise protected in a manner that will minimize noise inconvenience to adjacent residences.
  31. The permittee shall implement a dust control program during grading and construction to the satisfaction of the Director of Planning and the Director of Public Works.
  32. All material graded shall be sufficiently watered to prevent excessive amounts of dust during the construction phase. Watering shall occur at least twice daily with complete coverage, preferably in the late morning and after construction or grading activities is done for the day. All clearing, grading, earth moving or excavation activities shall cease during periods of high wind (i.e. greater than 20 mph average over one hour) to prevent excessive amounts of dust.
  33. The permittee shall, upon commencement of any grading activity allowed by this grant, diligently pursue all grading to completion.
  34. No construction equipment or vehicles shall be parked or stored on any existing public or private streets.

**Conditions**

35. The permittee shall obtain all necessary permits from Public Works and shall maintain all such permits in full force and effect as required throughout the life of this permit.
36. All construction and development within the subject property shall comply with the applicable provisions of the Building Code and the various related mechanical, electrical, plumbing, fire, grading and excavation codes as currently adopted by the County.
37. All structures, walls and fences open to public view shall remain free of extraneous markings, drawings, or signage. These shall include any of the above that do not directly relate to the use of the property, or that do not provide pertinent information about the premises. The only exceptions shall be seasonal decorations or signage provided under the auspices of a civic or non-profit organization.
38. In the event any such extraneous markings occur, the permittee shall remove or cover said markings, drawings, or signage within 24 hours of such occurrence, weather permitting. Paint utilized in covering such markings shall be of a color that matches, as closely as possible the color of the adjacent surfaces.
39. The permittee shall utilize water-saving devices and technology in the construction of this project consistent with the County Building and Plumbing Codes.
40. The property shall be developed and maintained in compliance with all applicable requirements of the Los Angeles County Department of Public Health ("Public Health"). Adequate water and sewage disposal facilities shall be provided to the satisfaction of said department.
41. If during construction of the project, soil contamination is suspected, construction in the area shall stop, and appropriate health and safety procedures shall be implemented to the satisfaction of Public Health. If it is determined that contaminated soils exist, remediation shall be conducted to the satisfaction of Public Health and the California Regional Water Quality Control Board.
42. Prior to the issuance of any building permit, the permittee shall demonstrate compliance with State Seismic Hazard Safety laws to the satisfaction of Public Works.
43. Prior to any demolition or alteration activities that may take place in the future a license asbestos and lead base paint contractor conduct an inspection of the structures.
44. Prior to the issuance of any grading permit, the project design shall provide for the filtering of flows to capture contaminants originating from the project site to the satisfaction of and approval by Public Works.

Conditions

45. The permittee shall comply with the Standard Urban Stormwater Mitigation Plan requirements to the satisfaction of Public Works.
46. During construction, all large-size truck trips shall be limited to off-peak commute periods.
47. During construction, the permittee shall obtain a Caltrans transportation permit as necessary for any transportation of heavy construction equipment and/or materials which requires the use of oversized-transport vehicles on state highways.
48. Prior to the issuance of any grading and/or building permit, site plans covering the applicable development phase as identified on the phasing map for Vesting Tentative Tract Map No. 066202 shall be submitted to and approved by the Director of Planning indicating that the proposed grading and/or construction:
  - A. complies with the conditions of this grant and the standards of the zone; and
  - B. is compatible with hillside resources.
49. The following residential planned development conditions shall apply:
  - a. Area. The proposed development plan shall include, as a condition of use, a parcel of land containing not less than five acres.
  - b. Density. When property in Zone RPD is developed pursuant to subsection B of Section 22.20.460, the number of units for each acre of the net area shall be equal to the number preceding the letter "U" in the suffix to the zoning symbol. The project is approved for 31 dwelling units.
  - c. Types of Structures.
    - a. Dwelling units are approved as detached residential units.
    - b. The Commission, in considering placement and type of structures, may modify or require a greater depth for yards than would be required if developed as provided in subsection A.
  - d. Open Space. Open space shall comprise not less than 2.9 net acres (38 percent of the subject property);  
—Open space may include one or more of the following, designated for the use and enjoyment of all of the occupants of the planned residential development or appropriate phase thereof:
    - a. Common open space developed for recreational purposes;
    - b. Areas of scenic or natural beauty forming a portion of the proposed development consisting of undisturbed open space, manufactured slopes and individual private areas.

Conditions

— In approving said open space, the Commission shall give consideration to the project to be developed, the characteristics of such open space, the manner in which the open space is to be improved and maintained, and such other information as the Commission deems pertinent. Reservation of open space shall be made a condition of approval. Such reservation shall be by public dedication, establishment of a maintenance district, common ownership, or other satisfactory means to insure the permanent reservation of, and where appropriate perpetual maintenance of, required open space.

- e. **Building Coverage.** Buildings shall not occupy more than 50 percent of the net area, except that common recreational buildings are excluded from this building-coverage limitation. Building coverage shall not occupy more than 50 percent of the net area, except that common recreational buildings are excluded from this building-coverage limitation. The proposed development consists of 57,719 square feet and is approximately 17% of the net lot area.
- f. **Parking.** The provisions of Part 11 of Chapter 22.52 which specify the number and/or location of required parking spaces relating to dwelling units, places of public assembly and other recreational uses shall not apply when property in Zone RPD is developed pursuant to this subsection B. In granting a conditional use permit for a planned residential development, the hearing officer shall require automobile parking for such uses in an amount adequate to prevent traffic congestion and excessive onstreet parking; provided, however, in no event shall less than two covered parking space per dwelling unit, be required as specified in said Part 11 of Chapter 22.52 be permitted.  
— Where the Commission fails to specifically designate such parking requirements, the requirements of Part 11 of Chapter 22.52 shall be deemed to have been specified.
- g. **Utilities.** The applicant shall submit to the Commission, and it shall be made a condition of approval, satisfactory evidence that the applicant has made arrangements with the serving utilities to install underground all new facilities necessary to furnish service in the development.
- h. **Development Schedule.** The Commission shall approve a progress schedule indicating the development of open-space related to the construction of residential dwelling units, which shall become a condition of approval. Where development is to be completed in phases, the said development may, with the approval of the Commission, be coordinated between phases as approved in subdivision 11 of subsection B of Section 22.20.460 of the County Code
- i. **Landscaping.** A plan for landscaping all open areas, where appropriate, shall be submitted to and approved by the Director of Planning.

**FINDINGS OF THE REGIONAL PLANNING COMMISSION  
COUNTY OF LOS ANGELES  
FOR VESTING TENTATIVE TRACT MAP NO. 066202**

1. The Los Angeles County Regional Planning Commission ("Commission") conducted a noticed public hearing in the matter of Vesting Tentative Tract Map No. 066202 on November 5, 2008. Vesting Tentative Tract Map No. 066202 was heard concurrently with Zone Change Case No. 2006-00004-(5) and Conditional Use Permit Case No. 2006-00051-(5).
2. Vesting Tentative Tract Map No. 066202 is a request to create one multi-family residential lot with 31 new detached condominium units on 8.2 gross acres.
3. The subject site is located at 16838 Sierra Highway in the Sand Canyon Zoned District.
4. The irregularly-shaped property is 8.2 gross acres (7.6 net acres) in size with slightly sloping to steep topography. Based on the applicant's submitted slope density analysis, 5.4 gross acres lie within the zero to 25 percent category, 1.2 gross acres lie within 25 to 50 percent category, and 1.6 gross acres are within the over 50 percent slope category.
5. Access to the proposed development is provided by a 36-foot wide offsite access easement from Quinn Drive, a 60-foot wide public street.
6. Vesting Tentative Tract Map No. 066202 is a request to create one multi-family residential lot with 31 new detached condominium units on 8.2 gross acres.
7. Zone Change Case No. 2006-00004-(5) is a related request to authorize change of zone from M-1 (Light Manufacturing) to RPD-10,000-4.1U (Residential Planned Development – 10,000 Square Feet Minimum Required Lot Area – 4.1 Dwelling Units per Net Acre). The RPD designation will allow the applicant with a conditional use permit to propose 31 dwelling units and density of 4.1 dwelling units per net acre. It is the intent of planned residential development to promote residential amenities beyond those expected under conventional development, to achieve greater flexibility in design, to encourage well-planned neighborhoods through creative and imaginative planning as a unit, and to provide for appropriate use of land which is sufficiently unique in its physical characteristics or other circumstances to warrant special methods of development. As applied in this case, the conditional use permit will restrict the development of the rezoned site to the proposed residential development as shown on the site plan marked "Exhibit A."

8. Conditional Use Permit Case No. 2006-00051-(5) is a related request to allow a planned residential development in compliance with RPD provisions including modification to building separation from 10 feet to 7.8 feet, and urban and non-urban hillside management area requirements.
9. Surrounding zoning includes RPD-10,000-1.95U (Residential Planned Development-10,000 Square Feet Minimum Required Lot Area-1.95 Dwelling Units per Net Acre) to the north, east and south. R-3 (Limited Multiple Residential-5,000 Square Feet Minimum Required Lot Area) and C-3 (Unlimited Commercial) exist to the west.
10. The subject property consists of one lot currently used as a semi-truck storage yard. Surrounding uses include single-family residences and vacant properties to the north and east, single-family residences and industrial properties to the south, and single-family residences and commercial properties to the west.
11. The project is consistent with the proposed RPD zoning classification. Detached units are permitted in the RPD zone pursuant to Section 22.20.460.B.3.a of the Los Angeles County Code ("County Code"). The proposed density of 31 dwelling units is consistent with the maximum 31 dwelling units that can be accommodated by the RPD-10,000-4.1U zoning. The applicant has requested a conditional use permit ("CUP") to allow a planned residential development in compliance with RPD provisions and includes a request for modification to the building separation distance from 10 feet to 7.8 feet, and hillside management area requirements.
12. Approval of the vesting tentative tract map and conditional use permit will not become effective unless and until the Los Angeles County Board of Supervisors ("Board of Supervisors") adopted an ordinance effecting the proposed change of zone, and such ordinance has become effective.
13. The applicant's site plan, labeled as Exhibit "A", depicts a a residential development of one multi-family lot with 31 detached condominium units on approximately 7.6 net acres. The residential units are arranged along the two main internal private driveways 34 feet to 36 feet wide. Of the 31 detached condominiums units, individual units range in size from 1,615 to 2,687 square feet and offered as two-story units. The units reach a maximum height of 29 feet and 7 inches. Building separation is a minimum of 7.8 feet, less than the required 10 feet. The 30 guest parking spaces (28 standard parking spaces) to be provided (minimum eight required) will be located along both internal private driveways. To ensure adequate access for the Los Angeles County Fire Department ("Fire Department"), the applicant is proposing a 20-foot wide emergency access off of Sierra Highway with a five-foot high access gate that meets all Fire Department requirements for emergency access. Two required parking spaces per unit yields

a minimum required of 62 covered spaces for the project. Of the total parking provided within the development, 62 parking spaces are provided within two-car garages. Grading consists of total 97,543 cubic yards of cut and fill grading (38,524 cut, 59,019 fill) with an additional import of 20,495 cubic yards of material.

14. The project is required to provide 32, 208 square feet (70 percent) of open space within the hillside management area and is providing 46,011 (100 percent) of open space ,and is required to provide 71,373 square feet (25 percent) of open space within the urban land use designation and is providing 79,641 square feet (28 percent) of open space. The proposed RPD zoning requires that the project provide 30 percent of net area (2.0 acres) of open space and is providing 2.9 acres (43 percent) of open space.
15. The property is depicted within the Hillside Management (HM) and Urban 2 (U2-3.3 to 6.6 Dwelling Units per Net Acre) land use categories on the Land Use Policy Map of the Santa Clarita Valley Area Plan ("Plan"), a component of the Los Angeles Countywide General Plan ("General Plan"). Based on the applicant's submitted slope density analysis, which provides different densities for the zero to 25 percent, 25 to 50 percent, and over 50 percent slope categories, the subject property yields a maximum of 44 dwelling units. A large portion of the project site (6.5 acres) lies within the Urban 2 land use category and per the applicant's slope density analysis, the mid-point density would be 27 dwelling units and the maximum density under the Urban 2 category would be 43 dwelling units. The property depicted within the HM category encompasses 1.05 acres and would allow a maximum of 0.6 dwelling units. The project proposes 31 dwelling units which is consistent with the maximum density. The U2 category of the Plan identifies areas particularly suitable for detached housing units and is intended to maintain the character of existing low density residential neighborhoods with densities up to 6.6 units per net acre.
16. The project is required to provide 32,208 square feet (70 percent) of open space within the HM area and provides 46,011 square feet (100 percent) of open space. The project also required to provide 71,373 square feet (25 percent) of open space within the U2 land use designation, and provides 79,641 square feet (28 percent) of open space for a project total of 2.9 acres (38 percent) of open space.
17. The project site is currently zoned M-1 which became effective on August 23, 1957, following the adoption of Ordinance Number 7191 creating the Sand Canyon Zoned District. The project proposes a zone change to RPD-10,000-4.1U.
18. Correspondence was received on the proposed development from the City of Santa Clarita ("City") concerning impacts to public parks and sewers. The City requested the addition of a condition that required the applicant to submit a

revised sewer-area study prior to the recordation of the final map. The City also wrote that the applicant would be paying Quimby Fees to the Los Angeles County Department of Parks and Recreation for construction of park facilities not planned within close proximity to the project site, forcing future residents to use City parks and further impacting their facilities negatively.

19. During the November 5, 2008 public hearing, the Commission heard a presentation from staff as well as testimony from the applicant and a representative of the City regarding the proposed development.
20. During the November 5, 2008 public hearing, staff stated that the proposed development was consistent with the proposed zoning and is providing a total of 2.9 acres (38 percent) of open space. The project also complies with the described proposed RPD zoning that requires the project provide 30 percent of net area (2.3 acres) as open space.
21. During the November 5, 2008 public hearing, staff stated the correspondence received from the City. The Commission inquired from the representative of the Los Angeles County Department of Public Works ("Public Works") if the sewer area condition was necessary. The Public Works representative stated they had worked with City staff and did not object to the added findings language for the sewer area study.
22. During the November 5, 2008 public hearing the Commission asked County Counsel if they were aware of any agreements to share Quimby Fees for County parks between the County of Los Angeles and other jurisdictions whose parks were impacted by residents of the unincorporated areas who had no parks. County Counsel stated that they were not aware of any agreements but would research the issue.
23. During the November 5, 2008 public hearing, the applicant stated that he had met with the City and agreed to the sewer-area condition, and recorded documents agreeing to the sewer-area conditions.
24. During the November 5, 2008 public hearing, the Commission requested that staff add conditions requiring all concrete drainage structures to be constructed in earth tone colors; that the applicant record a covenant or provide in the CC&R's full disclosure to prospective purchasers of homes that the development is located adjacent to existing M-1 zone where semi-truck repair currently exist and other industrial uses creating noxious noises may exist in the future.
25. On November 5, 2008, after taking all testimony, the Commission closed the

public hearing and adopted the Mitigated Negative Declaration and Mitigation Monitoring Program, and approved Vesting Tentative Tract Map No. 066202 and Conditional Use Permit Case No. 2006-00051-(5), and recommended adoption of Zone Change Case No. 2006-00004-(5) to the Los Angeles County Board of Supervisors.

26. The proposed use is required to comply with the development standards of the RPD zone pursuant to Sections 22.20.460.A through 22.20.460.B.13.C of the County Code.
27. The subject property is of adequate size and shape to accommodate the yards, walls, fences, parking, landscaping and other accessory structures, as shown on the site plan and Vesting Tentative Tract Map No. 066202 except as otherwise modified.
28. Compatibility with surrounding land uses will be ensured through the related zone change, conditional use permit and environmental conditions.
29. There is no evidence that the proposed project will be materially detrimental to the use, enjoyment, or valuation of property of other persons located in the vicinity of the project site.
30. The site is physically suitable for the type of development and density being proposed, since the property has adequate building sites to be developed in accordance with the County grading ordinance, has access to a County-maintained street, will be served by public sewers, will be provided with water supplies and distribution facilities to meet anticipated domestic and fire protection needs, and will have flood hazards and geologic hazards mitigated in accordance with the requirements of Public Works.
31. The design of the subdivision and the type of improvements will not cause serious public health problems, since sewage disposal, storm drainage, fire protection, and geologic and soils factors are addressed in the conditions of approval.
32. The design of the subdivision and the proposed improvements will not cause substantial environmental damage or substantial and avoidable injury to fish or wildlife or their habitat. The subject property is not located in a Significant Ecological Area and does not contain any stream courses or high value riparian habitat.
33. The design of the subdivision provides for future passive or natural heating or cooling opportunities therein.

34. The division and development of the property in the manner set forth on this map will not unreasonably interfere with the free and complete exercise of public entity and/or public utility rights-of-way and/or easements within this map, since the design and development as set forth in the conditions of approval and on the tentative tract map, provide adequate protection for any such easements.
35. Pursuant to Article 3.5 of the Subdivision Map Act, the proposed subdivision does not contain or front upon any public waterway, river, stream, coastline, shoreline, lake or reservoir.
36. The discharge of sewage from this land division into the public sewer system will not violate the requirements of the California Regional Water Quality Control Board pursuant to Division 7 (Commencing with Section 13000) of the California Water Code.
37. The housing and employment needs of the region were considered and balanced against the public service needs of local residents and available fiscal and environmental resources when the project was determined to be consistent with the General Plan.
38. This tract map has been submitted as a "vesting" tentative map. As such, it is subject to the provisions of Sections 21.38.010 through 21.38.080 of the County Code.
39. An Initial Study was prepared for this project in compliance with the California Environmental Quality Act (Public Resources Code Section 21000 et. seq.) ("CEQA"), the State CEQA Guidelines, and the Environmental Document Reporting Procedures and Guidelines of the County of Los Angeles. The Initial Study identified potentially significant effects of the project on Noise, Air Quality, Biota, Drainage and Grading, Hazardous Waste, Recycling, Underground Storage Tanks, Sewer, Emergency Services and Library Mitigation Fees. Prior to the release of the proposed Mitigated Negative Declaration and Initial Study for public review, the applicant made or agreed to revisions in the project that would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur. The Initial Study and project revisions showed that there is no substantial evidence, in light of the whole record before the Commission, that the project as revised may have a significant effect on the environment. Based on the Initial Study and project revisions, a Mitigated Negative Declaration has been prepared for this project. Conditions or changes in the proposed project are necessary in order to ensure the proposed project will not have a significant effect on the environment, and such conditions or changes have been included in the Mitigation Monitoring Program.

40. After consideration of the attached Mitigated Negative Declaration and Mitigation Monitoring Program together with any comments received during the public review process, the Commission finds on the basis of the whole record before the Commission that there is no substantial evidence the project as revised will have a significant effect on the environment, finds the Mitigated Negative Declaration reflects the independent judgment and analysis of the Commission, and adopts the Mitigated Negative Declaration and attached Mitigation Monitoring Program.
41. This project does not have "no effect" on fish and wildlife resources. Therefore, the project is not exempt from California Department of Fish and Game fees pursuant to Section 711.4 of the California Fish and Game Code.
42. Approval of this subdivision is conditioned on the subdivider's compliance with the attached conditions of approval as well as the conditions of approval for Conditional Use Permit Case No. 2006-00051-(5).
43. The location of the documents and other materials constituting the record of proceedings upon which the Commission's decision is based in this matter is the Department of Regional Planning ("Regional Planning"), 13th Floor, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. The custodian of such documents and materials shall be the Section Head of the Land Divisions Section, Regional Planning.

**THEREFORE, THE REGIONAL PLANNING COMMISSION:**

1. Approves the Mitigated Negative Declaration and certifies that it has been completed in compliance with CEQA and the State and County guidelines related thereto.
2. Approves Vesting Tentative Tract Map No. 066202 subject to the attached conditions and recommendations of the Los Angeles County Subdivision Committee.

**DEPARTMENT OF REGIONAL PLANNING  
VESTING TENTATIVE TRACT MAP NO. 066202**

**Map Date: 2-5-2008  
Exhibit Map Date: 2-5-2008**

**CONDITIONS:**

1. Conform to the requirements of Title 21 of the Los Angeles County Code ("County Code") (Subdivision Ordinance). Also, conform to the requirements of Conditional Use Permit Case No. 2006-00051-(5) and the Mitigation Monitoring Program.
2. Except as otherwise specified in Condition No. 3 and by Conditional Use Permit No. 2006-00051-(5), conform to the applicable requirements of the RPD zone (Residential Planned Development).
3. In accordance with Conditional Use Permit No. 2006-00051-(5), this land division is approved within a hillside area within a Residential Planned Development zone as a condominium development of 31 detached units with 2.9 net acres (38 percent of the subject property) of open space.
4. Recordation of the final map is contingent upon the effectuation of an ordinance changing the zoning of the subject property from M-1 (Light Manufacturing) to RPD-10,000-4.1U (Residential Planned Development-10,000 Square Feet Minimum Lot Area- 4.1 Units per Net Acre).
5. Provide at least 50 feet of street frontage on the property line for the lot.
6. The subject property shall be developed and maintained in substantial compliance with the approved vesting tentative map, dated February 5, 2008.
7. Per Section 22.56.205(1)(a) of the County Code the subdivider shall be required to permanently reserve all commonly owned areas. Such reservation shall be by establishment of a homeowners association, maintenance district or other appropriate means or methods to ensure to the satisfaction of the Director of Regional Planning ("Director of Planning") the permanent reservation and continued perpetual maintenance of required commonly owned areas.
8. Submit a copy of the project Conditions, Covenants and Restrictions ("CC&Rs") to the Los Angeles County Department of Regional Planning ("Regional Planning") for review and approval.
9. Record a covenant that provides full disclosure to prospective purchasers of the homes that the development is located adjacent to existing industrial zoning (M-1) with semi-truck repair and storage uses to the south permitted by such zoning. Submit the draft covenant for review and approval prior to recordation.

**Conditions**

10. The subdivider shall record a covenant with the County of Los Angeles agreeing to comply with the required environmental mitigation measures. Prior to recordation, submit a copy of the draft covenant to the Director of Planning for review and approval.
11. The subdivider shall plant only native, drought-resistant plant materials within the proposed project site and include conditions in the tract's CC&Rs to require continued enforcement of this condition. A landscape plan which may be incorporated into a revised site plan, shall be submitted and approved by the Director of Planning prior to issuance of any grading permit and/or building permit.
12. Dedicate to the County of Los Angeles on the final map the right to prohibit the construction of any structures on the open space area.
13. Delineate on the final map 2.9 acres of required open space as "Restricted Use Area Open Space" to be dedicated to the County of Los Angeles to the satisfaction of the Director of Planning.
14. Place a note or notes on the final map, to the satisfaction of Regional Planning, that this subdivision is approved as a condominium project for a total of 31 residential units whereby the owners of the units of air space will hold an undivided interest in the common areas, which will in turn provide the necessary access and utility easements for the units.
15. Provide for the ownership and maintenance of the open space area by the homeowners' association.
16. Provide slope planting and an irrigation system in accordance with the Grading Ordinance. Include conditions in the tract's CC&Rs or maintenance agreements which would require continued maintenance of the plantings for lots having planted slopes. Prior to final map approval, submit a copy of the document to be recorded to Regional Planning.
17. No grading permit shall be issued prior to the recordation of a final map, unless the Director of Planning determines that the proposed grading conforms to the conditions of this grant and the conditions of Conditional Use Permit Case No. 2006-00051-(5).
18. Provide in the CC&Rs a method for the continuous maintenance of the common areas, including the driveway and the lighting system along all walkways, to the satisfaction of Regional Planning.
19. Reserve in the CC&Rs the right for all residents within the condominium project to use the driveways for access and the guest parking spaces throughout the subdivision.

**Conditions**

20. All concrete drainage structures in this proposed development shall use only earth tone colors.
21. Three copies of a landscape plan which may be incorporated into a revised site plan, shall be submitted and approved by the Director of Planning as required by Conditional Use Permit Case No. 2006-00051-(5) prior to issuance of a grading permit and/or building permit.
22. Plant at least one tree of a non-invasive species within the front yard of the multi-family lot, and a minimum additional 10 trees within the project site. The location and the species of said trees shall be incorporated into a site plan or landscape plan. Prior to final map approval, the site/landscaping plan shall be approved by the Director of Planning and a bond shall be posted with Los Angeles County Department of Public Works ("Public Works") or other verification shall be submitted to the satisfaction of Regional Planning to ensure the planting of the required trees.
23. Pursuant to Chapter 22.72 of the County Code, the subdivider or his successor in interest shall pay a fee to the Los Angeles County Librarian prior to issuance of any building permit, as this project's contribution to mitigating impacts on the library system in the Santa Clarita Valley Planning Area, in the amount required by Chapter 22.72 at the time of payment and provide proof of payment to the Department of Regional Planning. The current fee amount is \$790.00 per dwelling unit (\$790.00 X 31 dwelling units = \$24,490.00). The Fee is subject to adjustment as provided for in applicable local and State law. The subdivider may contact the County Librarian at (562) 940-8450 regarding payment of fees.
24. Within five days of the tentative map approval date, remit a \$1,926.75 processing fee payable to the County of Los Angeles in connection with the filing and posting of a Notice of Determination in compliance with Section 21152 of the California Public Resources Code and Section 711 of the California Fish and Game Code to defray the costs of fish and wildlife protection and management incurred by the California Department of Fish and Game. No project subject to this requirement is final, vested or operative until the fee is paid.
25. The subdivider shall defend, indemnify and hold harmless the County, its agents, officers, and employees from any claim, action or proceeding against the County or its agents, officers, and employees to attack, set aside, void or annul this tract map approval, or related discretionary approvals, whether legislative or quasi-judicial, which action is brought within the applicable time period of Government Code Section 65499.37 or any other applicable limitation period. The County shall promptly notify the subdivider of any claim, action or proceeding and the County shall reasonably cooperate in the defense.
26. In the event that any claim, action, or proceeding as described above is filed against the County, the subdivider shall within ten days of the filing pay the Department of Regional Planning an initial deposit of \$5,000.00 from which actual costs shall be billed and

**Conditions**

deducted for the purpose of defraying the expense involved in the department's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to subdivider, or subdivider's counsel. The subdivider shall also pay the following supplemental deposits, from which actual costs shall be billed and deducted:

- a. If during the litigation process, actual costs incurred reach 80 percent of the amount on deposit, the subdivider shall deposit additional fund to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation.
- b. At the sole discretion of the subdivider, the amount of an initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by subdivider according to Los Angeles County Code Section 2.170.010.

Except as modified, this approval is subject to all those conditions set forth in Conditional Use Permit Case No. 2006-00051-(5), and the attached Mitigation Monitoring Program, the attached reports recommended by the Los Angeles County Subdivision Committee, which consists of members of the Public Works, Fire Department, Department of Parks and Recreation, and Public Health.

COUNTY OF LOS ANGELES  
DEPARTMENT OF PUBLIC WORKS  
LAND DEVELOPMENT DIVISION – SUBDIVISION  
TRACT NO. 66202 (Rev.)

Page 1/3

TENTATIVE MAP DATED 02-05-2008  
EXHIBIT "A" MAP DATED 02-05-2008

The following reports consisting of 12 pages are the recommendations of Public Works.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Details and notes shown on the tentative map are not necessarily approved. Any details or notes which may be inconsistent with requirements of ordinances, general conditions of approval, or Department policies must be specifically approved in other conditions, or ordinance requirements are modified to those shown on the tentative map upon approval by the Advisory agency.
2. Easements are tentatively required, subject to review by the Director of Public Works to determine the final locations and requirements.
3. Easements shall not be granted or recorded within areas proposed to be granted, dedicated, or offered for dedication for public streets, highways, access rights, building restriction rights, or other easements until after the final map is filed with the Registrar-Recorder/County Clerk's Office. If easements are granted after the date of tentative approval, a subordination must be executed by the easement holder prior to the filing of the final map.
4. In lieu of establishing the final specific locations of structures on each lot/parcel at this time, the owner, at the time of issuance of a grading or building permit, agrees to develop the property in conformance with the County Code and other appropriate ordinances such as the Building Code, Plumbing Code, Grading Ordinance, Highway Permit Ordinance, Mechanical Code, Zoning Ordinance, Undergrounding of Utilities Ordinance, Water Ordinance, Sanitary Sewer and Industrial Waste Ordinance, Electrical Code, and Fire Code. Improvements and other requirements may be imposed pursuant to such codes and ordinances.
5. All easements existing at the time of final map approval must be accounted for on the approved tentative map. This includes the location, owner, purpose, and recording reference for all existing easements. If an easement is blanket or indeterminate in nature, a statement to that effect must be shown on the tentative map in lieu of its location. If all easements have not been accounted for, submit a corrected tentative map to the Department of Regional Planning for approval.

The following reports consisting of 13 pages are the recommendations of Public Works.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Details and notes shown on the tentative map are not necessarily approved. Any details or notes which may be inconsistent with requirements of ordinances, general conditions of approval, or Department policies must be specifically approved in other conditions, or ordinance requirements are modified to those shown on the tentative map upon approval by the Advisory agency.
2. Easements are tentatively required, subject to review by the Director of Public Works to determine the final locations and requirements.
3. Easements shall not be granted or recorded within areas proposed to be granted, dedicated, or offered for dedication for public streets, highways, access rights, building restriction rights, or other easements until after the final map is filed with the Registrar-Recorder/County Clerk's Office. If easements are granted after the date of tentative approval, a subordination must be executed by the easement holder prior to the filing of the final map.
4. In lieu of establishing the final specific locations of structures on each lot/parcel at this time, the owner, at the time of issuance of a grading or building permit, agrees to develop the property in conformance with the County Code and other appropriate ordinances such as the Building Code, Plumbing Code, Grading Ordinance, Highway Permit Ordinance, Mechanical Code, Zoning Ordinance, Undergrounding of Utilities Ordinance, Water Ordinance, Sanitary Sewer and Industrial Waste Ordinance, Electrical Code, and Fire Code. Improvements and other requirements may be imposed pursuant to such codes and ordinances.
5. All easements existing at the time of final map approval must be accounted for on the approved tentative map. This includes the location, owner, purpose, and recording reference for all existing easements. If an easement is blanket or indeterminate in nature, a statement to that effect must be shown on the tentative map in lieu of its location. If all easements have not been accounted for, submit a corrected tentative map to the Department of Regional Planning for approval.

6. Adjust, relocate, and/or eliminate lot lines, lots, streets, easements, grading, geotechnical protective devices, and/or physical improvements to comply with ordinances, policies, and standards in effect at the date the County determined the application to be complete all to the satisfaction of Public Works.
7. Prior to final approval of the tract map submit a notarized affidavit to the Director of Public Works, signed by all owners of record at the time of filing of the map with the Registrar-Recorder/County Clerk's Office, stating that any proposed condominium building has not been constructed or that all buildings have not been occupied or rented and that said building will not be occupied or rented until after the filing of the map with the Registrar-Recorder/County Clerk's Office.
8. Place standard condominium notes on the final map to the satisfaction of Public Works.
9. Label driveways and multiple access strips as "Private Driveway and Fire Lane" and delineate on the final map to the satisfaction of Public Works.
10. Quitclaim or relocate easements running through proposed structures.
11. Show open space lots on the final map and dedicate residential construction rights over the open space lots.
12. Remove existing structures prior to final map approval. Demolition permits are required from the Building and Safety office.
13. A final tract map must be processed through the Director of Public Works prior to being filed with the Registrar-Recorder/County Clerk's Office.
14. Prior to submitting the tract map to the Director of Public Works for examination pursuant to Section 66442 of the Government Code, obtain clearances from all affected Departments and Divisions, including a clearance from the Subdivision Mapping Section of the Land Development Division of Public Works for the following mapping items; mathematical accuracy; survey analysis; and correctness of certificates, signatures, etc.
15. A final guarantee will be required at the time of filing of the final map with the Registrar-Recorder/County Clerk's Office.

TRACT NO. 66202 (Rev.)

Page 3/3

TENTATIVE MAP DATED 02-05-2008  
EXHIBIT "A" MAP DATED 02-05-2008

16. Within 30 days of the approval date of this land use entitlement or at the time of first plan check submittal, the applicant shall deposit the sum of \$2,000 (Minor Land Divisions) or \$5,000 (Major Land Divisions) with Public Works to defray the cost of verifying conditions of approval for the purpose of issuing final map clearances. This deposit will cover the actual cost of reviewing conditions of approval for Conditional Use Permits, Tentative Tract and Parcel Maps, Vesting Tentative Tract and Parcel Maps, Oak Tree Permits, Specific Plans, General Plan Amendments, Zone Changes, CEQA Mitigation Monitoring Programs and Regulatory Permits from State and Federal Agencies (Fish and Game, USF&W, Army Corps, RWQCB, etc.) as they relate to the various plan check activities and improvement plan designs. In addition, this deposit will be used to conduct site field reviews and attend meetings requested by the applicant and/or his agents for the purpose of resolving technical issues on condition compliance as they relate to improvement plan design, engineering studies, highway alignment studies and tract/parcel map boundary, title and easement issues. When 80% of the deposit is expended, the applicant will be required to provide additional funds to restore the initial deposit. Remaining balances in the deposit account will be refunded upon final map recordation

REPORT DATE 2/25/08, 11/26/07

**TENTATIVE MAP FEASIBILITY IS RECOMMENDED FOR APPROVAL FROM A GEOLOGIC STANDPOINT**

**THE FOLLOWING CONDITIONS MUST BE FULFILLED:**

1. The final map must be approved by the Geotechnical and Materials Engineering Division (GMED) to assure that all geotechnical requirements have been properly depicted. For Final Map clearance guidelines refer to GS051.0 in the Manual for Preparation of Geotechnical Reports (<http://www.dpw.lacounty.gov/gmed/manual.pdf>).
2. A grading plan must be geotechnically approved by the GMED prior to Final Map approval. The grading depicted on the plan must agree with the grading depicted on the tentative tract or parcel map and the conditions approved by the Planning Commission. If the subdivision is to be recorded prior to the completion and acceptance of grading, corrective geologic bonds may be required.
3. Prior to grading plan approval a detailed engineering geology and soils engineering report must be submitted that addresses the proposed grading. All recommendations of the geotechnical consultants must be incorporated into the plan (Refer to the Manual for Preparation of Geotechnical Reports at <http://www.dpw.lacounty.gov/gmed/manual.pdf>).
4. All geologic hazards associated with this proposed development must be eliminated. Alternatively, the geologic hazards may be designated as restricted use areas (RUA), and their boundaries delineated on the Final Map. These RUAs must be approved by the GMED, and the subdivider must dedicate to the County the right to prohibit the erection of buildings or other structures within the restricted use areas (refer to GS063.0 in the manual for preparation of Geotechnical Reports\*).
5. The Soils Engineering review dated 3/24/08 is attached.

**The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:**

**REQUIREMENTS PRIOR TO GRADING PLAN APPROVAL:**

1. Submit the following approvals:
  - a. Provide soil/geology approval of the grading plan by the Geotechnical & Materials Engineering Division (GMED).
  - b. The latest drainage concept/hydrology/Standard Urban Stormwater Mitigation Plan (SUSMP) by the Storm Drain and Hydrology Section of Land Development Division.

**REQUIREMENTS PRIOR TO FINAL MAP RECORDATION:**

2. Submit a grading plan for approval. The grading plans must show and call out the construction of at least all drainage devices and details, paved driveways, elevation and drainage of all pads, and the SUSMP devices if applicable. The applicant is required to show and call out all existing easements on the grading plan and obtain the easement holder approvals.
3. Home Owners Association (HOA)/maintenance agreement is required for privately maintained drainage devices.
4. Provide a copy of draft CC&Rs
5. Storm drain easements shown on the tentative map are no longer needed for final map approval.

TENTATIVE MAP DATED 02-05-2008  
EXHIBIT MAP DATED 02-05-2008

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Dedicate the right to restrict vehicular access on Sierra Highway.
2. Dedicate right of way for a property line return radius of 17' at the intersection of Sierra Highway and Ryan Lane.
3. Close any unused driveway with standard curb, gutter, and sidewalk along the property frontage on Sierra Highway.
4. Repair or replace any street improvements damaged during construction.
5. Construct base, pavement, curb, gutter, and full width sidewalk to join existing improvements along the property frontage on Sierra Highway.
6. Construct parkway improvements (sidewalk, driveway, landings, etc.) that either serve or form a part of a Pedestrian Access Route to meet current Americans with Disabilities Act (ADA) requirements to the satisfaction of Public Works.
7. Construct infill sidewalk along the southerly portion of the property frontage on Sierra Highway to the satisfaction of Public Works.
8. Construct a curb ramp at the intersection of Sierra Highway and Ryan Lane to the satisfaction of Public Works.
9. The centerline of Private Drive "A" shall align with the centerline of Blake Way.
10. An automatic gate (for emergency vehicle access use only) shall be installed at both ends of the proposed emergency access to Sierra Highway.
11. Locate the emergency entry gate a minimum of 20 feet beyond the right of way of Sierra Highway. The gates shall be opened inward.
12. Plant street trees along the property frontage on Sierra Highway.

13. Comply with the following street lighting requirements:
  - a. Provide street lights on concrete poles with underground wiring within the tract boundaries and along the property frontage on Sierra Highway to the satisfaction of Public Works. Submit street lighting plans as soon as possible for review and approval to the Street Lighting Section of the Traffic and Lighting Division. For additional information, please contact the Street Lighting Section at (626) 300-4726.
  - b. The proposed development is within an existing Lighting District. For acceptance of street light transfer of billing, all street lights in the development, or the current phase of the development, must be constructed according to Public Works approved plans. The contractor shall submit one complete set of "as-built" plans. Provided the above conditions are met, all street lights in the development, or the current phase of the development, have been energized, and the developer has requested a transfer of billing at least by January 1 of the previous year, the Lighting District can assume responsibility for the operation and maintenance of the street lights by July 1 of any given year. The transfer of billing could be delayed one or more years if the above conditions are not met.
14. Underground all existing service lines and distribution lines that are less than 50 KV and new utility lines to the satisfaction of City Engineer and Southern California Edison. Please contact Construction Division at (626) 458-3129 for new location of any above ground utility structure in the parkway.
15. Prior to final map approval, enter into an agreement with the County franchised cable TV operator (if an area is served) to permit the installation of cable in a common utility trench to the satisfaction of Public Works, or provide documentation that steps to provide cable TV to the proposed subdivision have been initiated to the satisfaction of Public Works.
16. Prepare detailed 1" = 40' scaled signing and striping plans for Sierra Highway and Quinn Drive in the vicinity of this project to the satisfaction of Public Works.
17. Obtain approval of Traffic Signal Plans (Scale 1:20) at Sierra Highway and Quinn Drive to the satisfaction of this Department's Traffic and Lighting Division prior to issuance of a building permit.

TENTATIVE MAP DATED 02-05-2008

EXHIBIT MAP DATED 02-05-2008

18. Prior to final map approval, the applicant shall enter into a secured agreement/bond with Public Works to guarantee the installation of a traffic signal at Sierra Highway and Quinn Drive when the traffic conditions warrant its installation. This intersection shall be monitored by the applicant for the installation of the signals up to 3 years after the certificate of occupancy of the last unit of TR 066202 is issued. The applicant or current owner of the development shall submit an annual traffic signal warrant analysis to Traffic and Lighting Division for review and approval. When the traffic signal is warranted, the applicant or current owner of the development shall construct the signal to the satisfaction of Public Works. Any security for the traffic signal construction submitted will be returned once the construction is completed to the satisfaction of Public Works or at the expiration of the above-mentioned monitoring program.
19. Prior to approval of the final map, pay the fees established by the Board of Supervisors for the Eastside Bridge and Major Thoroughfare Construction Fee District. The fee is to be based upon the fee rate in effect at the time of final map recordation. The current applicable fee is \$15,870 per factored unit and is subject to change.

  
Prepared by Allan Chan  
tr66202r-rev3(rev'd 12-16-08).doc

Phone (626) 458-4921

Date 12-16-2008

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. The subdivider shall install and dedicate main line sewers and serve each lot with a separate house lateral or have approved and bonded sewer plans on file with Public Works.
2. Install off-site sewer main line to serve this subdivision to the satisfaction of Public Works.
3. A sewer area study for the proposed subdivision (PC 12000AS and PC 12001AS, dated 09-29-2008) was reviewed and approved. No additional mitigation measures are required. The sewer area study shall be invalidated should the total number of dwelling units, increase, the density increases, dwelling units occur on previously identified building restricted lots, change in the proposed sewer alignment, increase in tributary sewershed, change of the sewer collection points, or the adoption of a land use plan or a revision to the current plan. A revision to the approved sewer area study may be allowed at the discretion of the Director of Public Works. The approved sewer area study shall remain valid for two years after initial approval of the tentative map. After this period of time, an update of the area study shall be submitted by the applicant if determined to be warranted by Public Works.
4. Per the recorded document numbers 20080594003 and 20080594003, the subdivider shall submit a revised sewer area study which calculates sewer flow for the proposed project, for the existing uses and for all future uses within the sewershed, extending downstream to the point of connection with the county trunk line. Future sewer flows shall be calculated based on the "area" X "coefficient" method as approved by the City of Santa Clarita. If upgraded City sewer facilities are required based on the total future sewer "Q" within the sewershed, then the study shall calculate an equitable "fair share" contribution and enter into a Mitigation Fee Agreement with the City of Santa Clarita to pay the fair share prior to recordation of either Tract map. Provide documentation to the satisfaction of Public Works that the City of Santa Clarita have determined this condition has been satisfied and the final map may proceed with recordation.
5. Provide a digital copy (PDF Format) of the approved area study and/or approved sewer improvement plans.
6. Easements are required, subject to review by Public Works to determine the final locations and requirements.

TENTATIVE MAP DATED 02-05-2008  
EXHIBIT "A" MAP DATED 02-05-2008

7. Provide any necessary off-site sanitary sewer and vehicular access easements to the satisfaction of Public Works. It shall be the sole responsibility of the subdivider to acquire the necessary easements.
8. Sewer reimbursement charges as determined by the Director of Public Works shall be paid to the County of Los Angeles before the filing of this land division map.

**STORM DRAIN SECTION CONDITIONS OF APPROVAL, PHONE: (626) 458-4921**

1. The on-site storm drain system will be privately maintained. Therefore, the covered storm drain easement shown on the tentative map and exhibit map are not required.
2. Permits must be obtained from the Department of Public Works Construction Division prior to connecting to the public storm drain system.

**Prior to Improvement Plans Approval:**

1. Comply with the requirements of the Drainage Concept/Hydrology Study/Standard Urban Stormwater Mitigation Plan (SUSMP), which was conceptually approved on 5/14/2008 to the satisfaction of the Department of Public Works.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. A water system maintained by the water purveyor, with appurtenant facilities to serve all buildings in the land division, must be provided. The system shall include fire hydrants of the type and location (both on-site and off-site) as determined by the Fire Department. The water mains shall be sized to accommodate the total domestic and fire flows.
2. There shall be filed with Public Works a statement from the water purveyor indicating that the water system will be operated by the purveyor, and that under normal conditions, the system will meet the requirements for the land division, and that water service will be provided to each building.
3. Easements shall be granted to the County, appropriate agency or entity for the purpose of ingress, egress, construction and maintenance of all infrastructures constructed for this land division to the satisfaction of Public Works.
4. Submit landscape and irrigation plans for each multi-family/open space lot in the land division, with landscape area greater than 2,500 square feet, in accordance with the Water Efficient Landscape Ordinance.

## FIRE DEPARTMENT

5823 Rickenbacker Road  
Commerce, California 90040

f.p. - Ramon

### CONDITIONS OF APPROVAL FOR SUBDIVISION - UNINCORPORATED

Subdivision: TR 66202 Map Date February 05, 2008 - Ex. A

C.U.P. \_\_\_\_\_ Map Grid 3067A

- ☐ **FIRE DEPARTMENT HOLD** on the tentative map shall remain until verification from the Los Angeles County Fire Dept. Planning Section is received, stating adequacy of service. Contact (323) 881-2404.
- ☒ Access shall comply with Title 21 (County of Los Angeles Subdivision Code) and Section 902 of the Fire Code, which requires all weather access. All weather access may require paving.
- ☒ Fire Department access shall be extended to within 150 feet distance of any exterior portion of all structures.
- ☐ Where driveways extend further than 150 feet and are of single access design, turnarounds suitable for fire protection equipment use shall be provided and shown on the final map. Turnarounds shall be designed, constructed and maintained to insure their integrity for Fire Department use. Where topography dictates, turnarounds shall be provided for driveways that extend over 150 feet in length.
- ☒ The private driveways shall be indicated on the final map as "Private Driveway and Firelane" with the widths clearly depicted. Driveways shall be maintained in accordance with the Fire Code.
- ☒ Vehicular access must be provided and maintained serviceable throughout construction to all required fire hydrants. All required fire hydrants shall be installed, tested and accepted prior to construction.
- ☒ This property is located within the area described by the Fire Department as "Very High Fire Hazard Severity Zone" (formerly Fire Zone 4). A "Fuel Modification Plan" shall be submitted and approved prior to final map clearance. (Contact: Fuel Modification Unit, Fire Station #32, 605 North Angeleno Avenue, Azusa, CA 91702-2904, Phone (626) 969-5205 for details).
- ☒ Provide Fire Department or City approved street signs and building access numbers prior to occupancy.
- ☐ Additional fire protection systems shall be installed in lieu of suitable access and/or fire protection water.
- ☐ The final concept map, which has been submitted to this department for review, has fulfilled the conditions of approval recommended by this department for access only.
- ☐ These conditions must be secured by a C.U.P. and/or Covenant and Agreement approved by the County of Los Angeles Fire Department prior to final map clearance.
- ☐ The Fire Department has no additional requirements for this division of land.

Comments: Access as shown on the Exhibit Map is adequate. The proposed gates shall provide comply with Regulation 5 and shall be interconnected to have both gates open at the same time. The private driveways grade transitions shall not exceed the design limitations of a fire apparatus.

### WATER SYSTEM REQUIREMENTS - UNINCORPORATED

Subdivision No. TR 66202 Tentative Map Date February 05, 2008 - Ex. A

Revised Report \_\_\_\_\_

- ☐ The County Forester and Fire Warden is prohibited from setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted. However, water requirements may be necessary at the time of building permit issuance.
- ☒ The required fire flow for public fire hydrants at this location is **1500** gallons per minute at 20 psi for a duration of **2** hours, over and above maximum daily domestic demand. **1** Hydrant(s) flowing simultaneously may be used to achieve the required fire flow.
- ☐ The required fire flow for private on-site hydrants is \_\_\_\_\_ gallons per minute at 20 psi. Each private on-site hydrant must be capable of flowing \_\_\_\_\_ gallons per minute at 20 psi with two hydrants flowing simultaneously, one of which must be the furthest from the public water source.
- ☒ Fire hydrant requirements are as follows:
- Install **2** public fire hydrant(s). Verify / Upgrade existing \_\_\_\_\_ public fire hydrant(s).
- Install \_\_\_\_\_ private on-site fire hydrant(s).
- ☒ All hydrants shall measure 6"x 4"x 2-1/2" brass or bronze, conforming to current AWWA standard C503 or approved equal. All on-site hydrants shall be installed a minimum of 25' feet from a structure or protected by a two (2) hour rated firewall.
- ☐ Location: As per map on file with the office.
- ☐ Other location: \_\_\_\_\_
- ☒ All required fire hydrants shall be installed, tested and accepted or bonded for prior to Final Map approval. Vehicular access shall be provided and maintained serviceable throughout construction.
- ☐ The County of Los Angeles Fire Department is not setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted.
- ☒ Additional water system requirements will be required when this land is further subdivided and/or during the building permit process.
- ☐ Hydrants and fire flows are adequate to meet current Fire Department requirements.
- ☐ Fire hydrant upgrade is not necessary, if existing hydrant(s) meet(s) fire flow requirements. Submit original water availability form to our office.

Comments: \_\_\_\_\_

All hydrants shall be installed in conformance with Title 20, County of Los Angeles Government Code and County of Los Angeles Fire Code, or appropriate city regulations. This shall include minimum six-inch diameter mains. Arrangements to meet these requirements must be made with the water purveyor serving the area.

LOS ANGELES COUNTY  
DEPARTMENT OF PARKS AND RECREATION

PARK OBLIGATION REPORT

Tentative Map #	66202	DRP Map Date: 02/05/2008	SCM Date: / /	Report Date: 11/26/2008
Park Planning Area #	35D	CANYON COUNTRY		Map Type: REV. (REV RECD)

Total Units  = Proposed Units  + Exempt Units

Sections 21.24.340, 21.24.350, 21.28.120, 21.28.130, and 21.28.140, the County of Los Angeles Code, Title 21, Subdivision Ordinance provide that the County will determine whether the development's park obligation is to be met by:

- 1) the dedication of land for public or private park purpose or,
- 2) the payment of in-lieu fees or,
- 3) the provision of amenities or any combination of the above.

The specific determination of how the park obligation will be satisfied will be based on the conditions of approval by the advisory agency as recommended by the Department of Parks and Recreation.

Park land obligation in acres or in-lieu fees:

ACRES:	0.30
IN-LIEU FEES:	\$45,747

Conditions of the map approval:

The park obligation for this development will be met by:

The payment of \$45,747 in-lieu fees.

Trails:

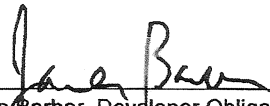

No trails.

Comments:

**\*\*The In-Lieu Fee has been updated from \$44,294 to \$45,747 to reflect the fee schedule at the time Map 66202 was advertised for public hearing in October 2008**

Contact Patrocenia T. Sobrepeña, Departmental Facilities Planner I, Department of Parks and Recreation, 510 South Vermont Avenue, Los Angeles, California, 90020 at (213) 351-5120 for further information or an appointment to make an in-lieu fee payment.

For information on Hiking and Equestrian Trail requirements contact Trail Coordinator at (213) 351-5135.

**PARK OBLIGATION WORKSHEET**

Tentative Map #	<b>66202</b>	DRP Map Date:	<b>02/05/2008</b>	SMC Date:	/ /	Report Date:	<b>11/26/2008</b>
Park Planning Area #	<b>35D</b>	<b>CANYON COUNTRY</b>					Map Type: <b>REV. (REV RECD)</b>

The formula for calculating the acreage obligation and or In-lieu fee is as follows:

$$(P) \text{ people} \times (0.003) \text{ Goal} \times (U) \text{ nits} = (X) \text{ acres obligation}$$

$$(X) \text{ acres obligation} \times \text{RLV/Acre} = \text{In-Lieu Base Fee}$$

Where: P = Estimate of number of People per dwelling unit according to the type of dwelling unit as determined by the 2000 U.S. Census\*. Assume \* people for detached single-family residences; Assume \* people for attached single-family (townhouse) residences, two-family residences, and apartment houses containing fewer than five dwelling units; Assume \* people for apartment houses containing five or more dwelling units; Assume \* people for mobile homes.

Goal = The subdivision ordinance allows for the goal of 3.0 acres of park land for each 1,000 people generated by the development. This goal is calculated as "0.0030" in the formula.

U = Total approved number of Dwelling Units.

X = Local park space obligation expressed in terms of acres.

RLV/Acre = Representative Land Value per Acre by Park Planning Area.

Total Units **31** = Proposed Units **31** + Exempt Units **0**

	People*	Goal 3.0 Acres / 1000 People	Number of Units	Acre Obligation
Detached S.F. Units	<b>3.21</b>	<b>0.0030</b>	<b>31</b>	<b>0.30</b>
M.F. < 5 Units	3.03	0.0030	0	0.00
M.F. >= 5 Units	2.10	0.0030	0	0.00
Mobile Units	3.01	0.0030	0	0.00

Tract Map No. 066202

Vicinity: Canyon Country

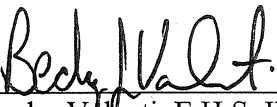

Tentative Tract Map Date: February 5, 2008 (3<sup>rd</sup> Revision)

The County of Los Angeles Department of Public Health has no objection to this subdivision and **Tentative Tract Map 066202** is cleared for public hearing. The following conditions still apply and are in force:

1. Potable water will be supplied by the **Santa Clarita Water District**, a public water system.
2. Sewage disposal will be provided through the public sewer and wastewater treatment facilities of the **Los Angeles County Sanitation District #26** as proposed.

If you have any questions or need additional information, please contact me at (626) 430-5380.

Respectfully,

Land Use Program

Los Angeles County  
Department of Regional Planning

*Planning for the Challenges Ahead*

July 24, 2008

Bruce W. McClendon FAICP  
Director of Planning

**PROJECT MITIGATION MEASURES  
DUE TO ENVIRONMENTAL EVALUATION**

**Project:** VTTM 066202

**Case:** RCUPT 200600051, RZCT 200600004

The Department of Regional Planning (DRP) staff has determined that the following mitigation measures or conditions for the project are necessary to ensure that the proposed project will not cause significant impacts upon the environment.

The permittee shall deposit the sum of \$3000.00 with the Department of Regional Planning within 30 days of project approval, in order to defray the cost of reviewing and verifying the information contained in the reports required by the Mitigation Monitoring Program.

**Mitigation Measures for: Noise**

1. Noise impacts during construction shall be mitigated to protect the nearby residences. In order to minimize construction noise impacts, the applicant shall implement the following mitigation measures:

A. The applicant shall comply with all applicable sections of the County of Los Angeles noise control ordinance Title 12 Environmental Protection Noise Control (i.e. construction noise). In addition, standard construction noise attenuation measures should be included but not limited to the following: 1) maintain equipment and follow the manufacturer's recommended noise muffling devices; 2) minimize equipment idling; 3) staging and delivery areas should be located as far as feasible from nearby residences and schedule deliveries during mid-day or mid morning; and 4) to the extent feasible, utilize electrical powered tools or equipment instead of diesel powered equipment for exterior work.

B. During grading and earth material hauling activities, it is suggested that such work be prohibited on any Sunday or legal holidays, or at any other time between weekday hours of 6:00 p.m. and 8:00 a.m. (ordinance indicates construction work prohibited between 7:00 p.m. and 7:00 a.m.). "Grading" means any excavating or filling of earth material or any combination thereof conducted at a site for construction or other improvements thereon.

**Mitigation Measures for: Air Quality**

2. All off-road diesel powered engines used during construction and any excavation/grading phases must utilize aqueous diesel fuels.

3. The Project Developer/General Contractors shall implement measures to reduce the emissions of pollutants generated by heavy-duty diesel-powered equipment operating at the Project Site throughout the project construction phases. The Project Developer shall include in construction contracts the control

measures required and recommended by the SCAQMD at the time of development. Examples of the types of measures currently required and recommended include the following:

- Keep all construction equipment in proper tune in accordance with manufacturer's specifications.
  - Use late model heavy-duty diesel-powered equipment at the Project Site to the extent that it is readily available in the South Coast Air Basin (meaning that it does not have to be imported from another air basin and that the procurement of the equipment would not cause a delay in construction activities of more than two weeks).
  - Use low-emission diesel fuel for all heavy-duty diesel-powered equipment operating and refueling at the Project Site to the extent that it is readily available and cost effective in the South Coast Air Basin (meaning that it does not have to be imported from another air basin, that the procurement of the equipment would not cause a delay in construction activities of more than two weeks, that the cost of the equipment use is not more than 20 percent greater than the cost of standard equipment). (This measure does not apply to diesel-powered trucks traveling to and from the site.)
  - Utilize alternative fuel construction equipment (i.e., compressed natural gas, liquid petroleum gas, and unleaded gasoline) to the extent that the equipment is readily available and cost effective in the South Coast Air Basin (meaning that it does not have to be imported from another air basin, that the procurement of the equipment would not cause a delay in construction activities of more than two weeks, that the cost of the equipment use is not more than 20 percent greater than the cost of standard equipment).
  - Limit truck and equipment idling time to five minutes or less.
  - Rely on the electricity infrastructure surrounding the construction sites rather than electrical generators powered by internal combustion engines to the extent feasible.
4. The Project Developer/General Contractors shall implement fugitive dust control measures in accordance with SCAQMD Rule 403. The Project Developer shall include in construction contracts the control measures required and recommended by the SCAQMD at the time of development. Examples of the types of measures currently required include the following:
- Use watering to control dust generation during demolition of structures or break-up of pavement.
  - Water active grading/excavation sites and unpaved surfaces at least three times daily.
  - Cover stockpiles with tarps or apply non-toxic chemical soil binders.
  - Sweep daily (with water sweepers) all paved parking areas and staging areas.
  - Provide daily clean-up of mud and dirt carried onto paved streets from the site.
  - Install wheel washers for all exiting trucks, or wash off the tires or tracks of all trucks and equipment leaving the site.
  - Install wind breaks at the windward sides of construction areas.
  - Suspend excavation and grading activity when winds (instantaneous gusts) exceed 15 miles per hour over a 30-minute period or more.
  - An information sign shall be posted at the entrance to each construction site that identifies the permitted construction hours and provides a telephone number to call and receive information about the construction project or to report complaints regarding excessive fugitive dust generation. Any reasonable complaints shall be rectified within 24 hours of their receipt.

**Mitigation Measures for: Biota**

**5. The following mitigation measures shall be applied:**

A. To reduce the long term loss of native habitat and the potential of invasive species establishment, a landscape plan shall be submitted for review and approval by the County of Los Angeles Department of Regional Planning prior to the issuance of a grading permit. Landscaping shall provide a visual screening and erosion-preventative function. The landscape plan shall limit irrigation to within fifty feet of habitable structures, shall utilize only locally-sourced, locally indigenous plant species and varieties outside of irrigated zones, and shall use non-invasive species within irrigated zones.

B. Prior to grading, a qualified biologist shall be retained by the applicant as the biological monitor subject to the approval of the County of Los Angeles. That person shall ensure that impacts to biological resources (inclusive of special-status plants) are avoided or minimized, and shall conduct pre-grading field surveys for special-status plant and animal species that may be affected and/or eliminated as a result of grading and/or site preparation activities. During earthmoving activities, the biological monitor shall be present to relocate any vertebrate species that may come into harm's way to an appropriate offsite location of similar habitat. The biological monitor shall be authorized to stop specific grading activities if violations of mitigation measures or any local, state, or federal laws are suspected.

C. Project related activities likely to have the potential of disturbing suitable bird nesting habitat shall be prohibited from February 1 through August 31, unless the biological monitor acceptable to the Director of Planning surveys the project area prior to disturbance to confirm that disturbance to habitat will not result in the failure of nests on-site or immediately adjacent to the area of disturbance. Disturbance shall be defined as any activity that physically removes and/or damages vegetation or habitat, any action that may cause disruption of nesting behavior such as noise exceeding 90dB from equipment, or direct artificial night lighting. Surveys shall be conducted on the subject property within 300 feet of disturbance areas (500 feet for raptors) no earlier than seven (7) days prior to the commencement of disturbance. If an active nest is discovered on-site or can be reasonably deduced to exist immediately adjacent off-site (in cases where access to adjacent properties is prevented), the project biologist shall demarcate an area to be avoided by construction activity until the active nest(s) is vacated for the season and there is no evidence of further nesting attempts. This demarcated area will incorporate a buffer area surrounding the active nest that is suitable in size and habitat type to provide a reasonable expectation of breeding success for nesting birds. Limits of avoidance shall be demarcated with flagging or fencing. The project proponent shall record the results of the surveys and recommended protective measures described above and submit the records to the Department of Regional Planning to document compliance with applicable State and Federal laws pertaining to the protection of native birds.

D. Any temporary or permanent fencing or sign posts shall be of a type that does not inadvertently snare perching birds, especially raptors. In an effort to eliminate the potential of snaring, fence and sign posts shall be of a type either lacking bolt holes near the top of the post or shall have the holes filled with a nut and bolt.

E. In order to avoid impacts to nighttime wildlife activities, exterior night lighting shall be directed downward onto the property, of low intensity, at low height and shielded to prevent illumination of

surrounding properties and undeveloped areas; security lighting, if any is used, shall be on a motion detector.

F. Vegetation within the Fuel Modification Plan area outside of irrigated areas shall be thinned selectively (i.e. no wholesale clearing) so that elements of native vegetation remain. The trimming of native shrubs shall be rotated from year to year so that individual plants are able to recover from pruning and 'rest' before being pruned again. Fuel modification activities shall be accomplished by manual means (including hand-held powered equipment such as weed whackers); mowers, disking, other large machinery, or herbicides shall not be used.

G. Anticoagulants are not to be used as a method of rodent control.

Mitigation Measures for: **Drainage and Grading**

6. The project shall comply with the drainage concept/ hydrology study/ Standard Stormwater Urban Mitigation Plan approved on May 14, 2008, by Public Works.

7. A grading plan is required to be reviewed and approved by Public Works prior to issuance of any grading and building permits. All or a portion of the site is located within a potentially liquefiable area per the State of California Seismic Hazard Zones Map-Mint Canyon Quadrangle. Refer to approved feasibility by Public Works for Revised Tentative Tract No. 066202 dated February 5, 2008, by Regional Planning (Soils Review Sheet dated March 24, 2005, and Geologic Review Sheet dated March 12, 2008).

Mitigation Measures for: **Hazardous Waste**

8. The proposed project may generate household hazardous waste, which could adversely impact existing Hazardous Waste Management infrastructure. The property owner(s) shall ensure that each new homeowner of a residence in the subdivision be provided with educational materials on the proper management and disposal of household hazardous waste. The project proponent may contact Public Works for available educational materials by calling 1(888) CLEAN LA.

9. If any excavated soil is contaminated, or classified as hazardous waste by an appropriate agency, the soil must be managed and disposed in accordance with applicable Federal, State, and local laws and regulations.

Mitigation Measures for: **Recycling**

10. The developer/project proponent shall ensure that an adequate storage area is provided for the collection and removal of recyclable materials in accordance with the amended version of the California Solid Waste Reuse and Recycling Access Act of 1991. The Environmental Programs Division of Public Works, Environmental Health Services, and the Fire Department shall review and approve plans for a designated collection/storage area(s) within the subdivision for recyclable and green waste materials for this project.

11. Construction projects with a total value of over \$100,000 and demolition and grading projects in the Los Angeles County's unincorporated areas are required to recycle or reuse 50 percent of the construction and demolition debris generated per the Los Angeles County's Construction and Demolition

Debris Recycling and Reuse Ordinance. A Recycling and Reuse Plan must be submitted for review and approval by Public Works' Environmental Programs Division before a construction, demolition, or grading permit may be issued.

**Mitigation Measures for: Underground Storage Tanks**

12. Should any operation within the subject project include the construction, installation, modification, or removal of underground storage tanks, Public Works' Environmental Programs Division must be contacted for required approvals and operating permits.

**Mitigation Measures for: Sewer**

13. Although the project area is outside the jurisdictional boundaries of the County Sanitation Districts and will require annexation into the Santa Clarita Valley Sanitation District before sewerage service can be provided to the proposed development, the wastewater flow originating from the proposed project will discharge to a local sewer line, not maintained by the County sanitation Districts, for conveyance to the County Sanitation Districts' Soledad Canyon Trunk sewer, Section 5, located in Soledad Canyon Road at Sierra Highway. This 18-inch diameter trunk sewer has a design capacity of 6.4 million gallons per day (mgd) and conveyed a peak flow of 3 mgd when last measured in 2003. The expected average wastewater flow from the project site is 8,060 gallons per day. Through authorization by the California Health and Safety Code, a connection fee is necessitated by the County Sanitation Districts for the privilege of connecting (directly or indirectly) to the Districts' Sewerage System or increasing the strength or quantity of wastewater attributable to a particular parcel or operation already connected. This connection fee is a capital facilities fee that is imposed in an amount sufficient to construct an incremental expansion of the Sewerage System to accommodate the proposed project. Payment of a connection fee will be required before a permit to connect to the sewer is issued. The applicant shall contact the Connection Fee Counter of the County Sanitation Districts at (562) 908-4288, ext. 2727.

14. County Public Works' Consolidated Sewer Maintenance District is responsible for the operation and maintenance of the local sewers within the unincorporated Mint Canyon area. Therefore, the entire project will also be required to be annexed to the Consolidated Sewer Maintenance District. All sewer construction shall comply with the Los Angeles County Sanitation Districts' requirements for trunk sewer system disposal facilities. Please contact the Contract Cities Plan Check section at (626) 300-3388. Applicant is required to provide a copy of sewer area study, approved by the City of Santa Clarita and Public Works' Land Development Division.

15. Comply with all requirements and mitigation fees necessitated by the City of Santa Clarita for City Sewer Use Permit.

**Mitigation Measures for: Emergency Services**

16. The applicant shall participate in an appropriate financing mechanism, such as a developer fee or an in-kind consideration in lieu of developer fees, to provide funds for fire protection facilities which are required by new commercial, industrial or residential development in an amount proportionate to the demand created by this project. Currently, the developer fee is a set amount per square foot of building space, adjusted annually, and is due and payable at the time a building permit is issued. In the event that the developer fee is no longer in effect at the time of building permit issuance then this mitigation

measure will be required.

17. The project is within the jurisdiction of the California Highway Patrol, Newhall Area. To mitigate any problems of an increase in traffic volume creating issues with increased calls for traffic enforcement, emergency incident management, public service, assistance, response times and accident investigation, the applicant/developer shall ensure that no construction vehicles will be parked along Sierra Highway. Captain S.V. Bernard and Sergeant Martinez of the California Highway Patrol's station in the Newhall area will be in charge of monitoring this measure, in coordination with Regional Planning and Public Works.

18. In order to ensure crime prevention and for the safety and security of future residents, the applicant/developer shall implement the following measures into the site and building layout design:

- Proper lighting in open areas and parking lots and sufficient street lighting for the project streets, remaining in compliance with mitigation measure 5.(E) of the Biota section of this MMP;
- Good visibility of doors and windows from the street and between buildings;
- Provide Knox Box entry key system for law enforcement, if there are security gates planned for entry to the complex.
- Ensure that the required building address numbers be lighted and readily apparent from the street for emergency response agencies.

Captain Jacques A. La Berge and Deputy Patrick Rissler of the Los Angeles County Sheriff Department's Santa Clarita Valley Station will participate in the review of the project's design and layout, in coordination with Regional Planning and Public Works.

#### Mitigation Measures for: **Library Mitigation Fees**

19. The applicant will be required to pay library facilities mitigation fees at the time the building permits for the project are issued. The proposed project is located in the Library's Planning Area 1 (Santa Clarita Valley). The current mitigation fee for this area, which is adjusted annually based on changes in the Consumer Price Index, is \$765 per residential unit. Therefore, the applicant would be required to pay a mitigation fee of \$23,715 ( $\$765 \times 31$  residential units). The actual fee obligation for this project may be higher because the fee per residential unit will be that in effect at the time the building permits are issued.

#### Mitigation Measures for: **Mitigation Compliance**

20. As a means of ensuring compliance of all above mitigation measures, the applicant is responsible for submitting an annual mitigation compliance report to the DRP for review and responsible for replenishing the mitigation monitoring account, if necessary, until such time as all mitigation measures have been implemented and completed.

As the applicant, I agree to incorporate these changes/conditions into the project, and understand that the public hearing and consideration by a Hearing Officer or the Planning Commission will be on the project as changed/conditioned.

MITIGATION MONITORING PROGRAM  
PROJECT NO. VTTM 066202

Mitigation Measure	Action Required	When Monitoring to Occur	Responsible Agency or Party	Monitoring Agency or Party
<b>Noise</b> 1. Noise impacts during construction shall be mitigated to protect the nearby residences. In order to minimize construction noise impacts, the applicant shall implement the following mitigation measures:  A. The applicant shall comply with all applicable sections of the County of Los Angeles noise control ordinance Title 12 Environmental Protection Noise Control (i.e. construction noise). In addition, standard construction noise attenuation measures should be included but not limited to the following: 1) maintain equipment and follow the manufacturer's recommended noise muffling devices; 2) minimize equipment idling; 3) staging and delivery areas should be located as far as feasible from nearby residences and schedule deliveries during mid-day or mid morning; and 4) to the extent feasible, utilize electrical powered tools or equipment instead of diesel powered equipment for exterior work.  B. During grading and earth material hauling activities, it is suggested that such work be prohibited on any Sunday or legal holidays, or at any other time between weekday hours of 6:00 p.m. and 8:00 a.m. (ordinance indicates construction work prohibited between 7:00 p.m. and 7:00 a.m.). "Grading" means any excavating or filling of earth material or any combination thereof conducted at a site for construction or other improvements thereon.	Payment for implementation of noise mitigation measures to be paid prior to commencement of construction.	Monitoring to occur during construction.	Applicant	Los Angeles County Departments of Regional Planning, Public Works, and Public Health

<p>invasive species within irrigated zones.</p> <p>B. Project related activities likely to have the potential of disturbing suitable bird nesting habitat shall be prohibited from February 1 through August 31, unless a biological monitor acceptable to the Director of Planning surveys the project area prior to disturbance to confirm that disturbance to habitat will not result in the failure of nests on-site or immediately adjacent to the area of disturbance. Disturbance shall be defined as any activity that physically removes and/or damages vegetation or habitat, any action that may cause disruption of nesting behavior such as noise exceeding 90dB from equipment, or direct artificial night lighting. Surveys shall be conducted on the subject property within 300 feet of disturbance areas (500 feet for raptors) no earlier than seven (7) days prior to the commencement of disturbance. If an active nest is discovered on-site or can be reasonably deduced to exist immediately adjacent off-site (in cases where access to adjacent properties is prevented), the project biologist shall demarcate an area to be avoided by construction activity until the active nest(s) is vacated for the season and there is no evidence of further nesting attempts. This demarcated area will incorporate a buffer area surrounding the active nest that is suitable in size and habitat type to provide a reasonable expectation of breeding success for nesting birds. Limits of avoidance shall be demarcated with flagging or fencing. The project</p>

Mitigation Measure	Action Required	When Monitoring to Occur	Responsible Agency or Party	Monitoring Agency or Party
<p>proponent shall record the results of the surveys and recommended protective measures described above and submit the records to the Department of Regional Planning to document compliance with applicable State and Federal laws pertaining to the protection of native birds.</p> <p>C. Prior to grading, a qualified biologist shall be retained by the applicant as the biological monitor subject to the approval of the County of Los Angeles. That person shall ensure that impacts to biological resources (inclusive of special-status plants) are avoided or minimized, and shall conduct pre-grading field surveys for special-status plant and animal species that may be affected and/or eliminated as a result of grading and/or site preparation activities. During earthmoving activities, the biological monitor shall be present to relocate any vertebrate species that may come into harm's way to an appropriate offsite location of similar habitat. The biological monitor shall be authorized to stop specific grading activities if violations of mitigation measures or any local, state, or federal laws are suspected.</p> <p>D. Any temporary or permanent fencing or sign posts shall be of a type that does not inadvertently snare perching birds, especially raptors. In an effort to eliminate the potential of snaring, fence and sign posts shall be of a type either lacking bolt holes near the top of the post or shall have the holes filled with a nut and bolt.</p>				

MITIGATION MONITORING PROGRAM  
PROJECT NO. VTTM 066202

Mitigation Measure	Action Required	When Monitoring to Occur	Responsible Agency or Party	Monitoring Agency or Party
<p>E. In order to avoid impacts to nighttime wildlife activities, exterior night lighting shall be directed downward onto the property, of low intensity, at low height and shielded to prevent illumination of surrounding properties and undeveloped areas; security lighting, if any is used, shall be on a motion detector.</p> <p>F. Vegetation within the Fuel Modification Plan area outside of irrigated areas shall be thinned selectively (i.e. no wholesale clearing) so that elements of native vegetation remain. The trimming of native shrubs shall be rotated from year to year so that individual plants are able to recover from pruning and 'rest' before being pruned again. Fuel modification activities shall be accomplished by manual means (including hand-held powered equipment such as weed whackers); mowers, diskings, other large machinery, or herbicides shall not be used.</p> <p>G. Anticoagulants are not to be used as a method of rodent control.</p>				
<p><b>Drainage and Grading</b></p> <p>6. The project shall comply with the drainage concept/ hydrology study/ Standard Stormwater Urban Mitigation Plan approved on May 14, 2008, by Public Works.</p> <p>7. ## \*\*\*\*\* INITIAL STUDY \*\*\*\*\*

COUNTY OF LOS ANGELES  
DEPARTMENT OF REGIONAL PLANNINGGENERAL INFORMATIONI.A. Map Date: February 2008Staff Member: Rudy SilvasThomas Guide: 4462 C6USGS Quad: Mint CanyonLocation: Southeast of Sierra Highway and Quinn Drive intersection in Canyon CountryDescription of Project:

*The proposed vesting tentative tract map project is a request for development of 31' detached single family residential condominium units. The detached condominium units will vary in design from one to two stories. The subdivision is proposed over 7.61 acres of land, of which 3.9 acres will be developed, 0.82 acres to be utilized for street construction, and 2.88 acres to remain as designated open space. Primary access to the site will be through an off-site access easement from Quinn Drive to the north. A 20 foot wide emergency access only driveway is proposed from Sierra Highway on the west end of the site. The grading proposed for VTTM 066202 is for 38,524 cubic yards of cut, 59,019 cubic yards of fill, with 20,495 cubic yards of fill to be imported for a total amount of 118,038 cubic yards to be handled, with a conditional use permit filed for grading, hillside management, and density controlled development. A zone change is proposed for RPD-10,000 (Residential Planned Development Zone-10,000 square foot minimum of lot area required per unit).*

Gross Acres: 7.61 acres

Environmental Setting: *This project site is developed and utilized as a truck storage and maintenance facility. Site has been disturbed. Truck storage area and maintenance facility are located in the western half section of the property which fronts along Sierra Highway, with the eastern half section comprised of hillside terrain, chaparral, dirt trails and a large graded pad area.*

Zoning: *Current zoning is M-1 (Light Manufacturing Zone)*General Plan: *Nonurban (R)*

Community/Areawide Plan: *Santa Clarita Valley Areawide Plan categories U2 (Urban 2 – 3.4 to 6.6 dwelling units per acre), and HM (Hillside Management).*

(Project TTM 064989)

### DESCRIPTION & STATUS

75 single family residential lots on 65 acres, with zone change and conditional use permit; case withdrawn in 1989. Located between Scherzinger Ln. and Sand Canyon Rd.

5 multi-family unit structures with 115 condominium units, 1 recreational lot and 1 open space lot on 65 acres, and a proposed zone change with conditional use permit; approved in 1992 but expired in 2000, with exception of zone change adopted in 1993. Project located between Scherzinger Ln. and Sand Canyon Rd.

2 single family lots on 0.49 acres, approved in 1985 but not recorded. Project located at 29543 Fitch Ave.

24 single family lot subdivision with open space area, with associated oak tree permit and CUP for hillside management and density controlled development; project pending. Project located at 16165 Sierra Highway.

NOTE: For EIRs, above projects are not sufficient for cumulative analysis.

### REVIEWING AGENCIES

#### Responsible Agencies

- ☐ None
- ☒ Regional Water Quality Control Board
- ☒ Los Angeles Region
- ☐ Lahontan Region
- ☐ Coastal Commission
- ☐ Army Corps of Engineers
- ☒ Caltrans

#### Trustee Agencies

- ☐ None
- ☐ US Fish & Wildlife Service
- ☒ State Fish and Game
- ☐ State Parks

#### Special Reviewing Agencies

- ☐ None
- ☒ Santa Monica Mountains Conservancy
- ☐ County of Ventura
- ☒ Santa Clarita Water
- ☒ City of Santa Clarita
- ☒ Castaic Lake Water Agency
- ☒ SCOPE
- ☐ Friends of the Rivers
- ☒ Native American Tribal

#### Representative

### DEVELOPMENT MONITORING SYSTEM (DMS)

As required by the Los Angeles County General Plan, DMS\* shall be employed in the Initial Study phase of the environmental review procedure as prescribed by state law.

#### Development Policy Map

- Designation: Urban Expansion (4)
- ☒ Yes ☐ No Is the project located in the Antelope Valley, East San Gabriel Valley, Malibu/Santa Monica Mountains or Santa Clarita Valley planning area?
- ☐ Yes ☒ No Is the project at urban density and located within, or proposes a plan amendment to, an urban expansion designation?

If both of the above questions are answered "yes", the project is subject to a County DMS analysis.

☐ Check if DMS printout generated (attached) Date of printout: \_\_\_\_\_

\*EIRs and/or staff reports shall utilize the most current DMS information available.

**Environmental Finding:**

**FINAL DETERMINATION:** On the basis of this Initial Study, the Department of Regional Planning finds that this project qualifies for the following environmental document:

☐ NEGATIVE DECLARATION, inasmuch as the proposed project will not have a significant effect on the environment.

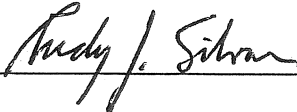

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was determined that this project will not exceed the established threshold criteria for any environmental/service factor and, as a result, will not have a significant effect on the physical environment.

☒ MITIGATED NEGATIVE DECLARATION, in as much as the changes required for the project will reduce impacts to insignificant levels (see attached discussion and/or conditions).

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was originally determined that the proposed project may exceed established threshold criteria. The applicant has agreed to modification of the project so that it can now be determined that the project will not have a significant effect on the physical environment. The modification to mitigate this impact(s) is identified on the Project Changes/Conditions Form included as part of this Initial Study.

☐ ENVIRONMENTAL IMPACT REPORT\*, inasmuch as there is substantial evidence that the project may have a significant impact due to factors listed above as "significant".

☐ At least one factor has been adequately analyzed in an earlier document pursuant to legal standards, and has been addressed by mitigation measures based on the earlier analysis as described on the attached sheets (see attached Form DRP/IA 101). The EIR is required to analyze only the factors not previously addressed.

Reviewed by: Rudy Silvas  Date: 7/30/08

Approved by: Paul McCarthy  Date: 7/30/08

☐ This proposed project is exempt from Fish and Game CEQA filing fees. There is no substantial evidence that the proposed project will have potential for an adverse effect on wildlife or the habitat upon which the wildlife depends. (Fish & Game Code 753.5).

☐ Determination appealed--see attached sheet.

\*NOTE: Findings for Environmental Impact Reports will be prepared as a separate document following the public hearing on the project.

## HAZARDS - 1. Geotechnical

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project located in an active or potentially active fault zone, Seismic Hazards Zone, or Alquist-Priolo Earthquake Fault Zone? <i>Project is located one mile south of Mint Canyon Fault, and two miles west of Tick Canyon fault</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an area containing a major landslide(s)? <i>Hillside area (Source: Los Angeles County Safety Element Map – Plate 5 Landslide Inventory) State of California Seismic Hazard Zone Map</i>
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an area having high slope instability?
d.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Is the project site subject to high subsidence, high groundwater level, liquefaction, or hydrocompaction? <i>Liquefaction (Source: State of California Seismic Hazard Zone Map)</i>
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the proposed project considered a sensitive use (school, hospital, public assembly site) located in close proximity to a significant geotechnical hazard?
f.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Will the project entail substantial grading and/or alteration of topography including slopes of over 25%? <i>Approximately 118,038 cubic yards of grading is to be handled, which includes grading of a hillside area.</i>
g.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Would the project be located on expansive soil, as defined in Table 18-1-B of Uniform Building Code (1994), creating substantial risks to life or property? <i>Department of Public Works shall verify</i>
h.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

### STANDARD CODE REQUIREMENTS

☒ Building Ordinance No. 2225 – Sections 308B, 309, 310, and 311 and Chapters 29 and 70

☒ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size      ☐ Project Design

☒ Approval of Geotechnical Report by DPW

Comply with Mitigation Monitoring Program (MMP) for Drainage and Grading

### CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by, **geotechnical** factors?

☐ Potentially significant Impact

☒ Less than significant with project mitigation

☐ Less than significant/No

## HAZARDS - 2. Flood

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the major drainage course, as identified on USGS quad sheets by a dashed line, located on the project site?
b.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Is the project site located within or does it contain a floodway, floodplain, or designated flood hazard zone? <i>Project site along Sierra Highway within a 100 year flood area (Source: Los Angeles County Safety Element Map Plate 6 – Flood and Inundation Hazard)</i>
c.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Is the project site located in or subject to high mudflow conditions?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project contribute or be subject to high erosion and debris deposition from run-off? <i>Project should improve site for erosion control and run-off</i>
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project substantially alter the existing drainage pattern of the site or area? <i>Should improve existing drainage pattern</i>
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors (e.g., dam failure)?

### STANDARD CODE REQUIREMENTS

☒ Building Ordinance No. 2225 – Section 308A      ☒ Ordinance No. 12,114 (Floodways)

☒ Approval of Drainage Concept by DPW

☒ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size      ☐ Project Design

*Comply with MMP for Drainage and Grading*

### CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **flood (hydrological)** factors?

☐ Potentially significant

☒ Less than significant with project mitigation

☐ Less than significant/No impact

## HAZARDS - 3. Fire

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Is the project site located in a Very High Fire Hazard Severity Zone (Fire Zone4)?  <i>Project is located in Fire Zone 4.</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site in a high fire hazard area and served by inadequate access due to lengths, width, surface materials, turnarounds or grade? <i>Primary 36' wide access from Quinn Dr. through off-site access easement, and a 20' secondary emergency access from Sierra Highway.</i>
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site have more than 75 dwelling units on a single access in a high fire hazard area?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an area having inadequate water and pressure to meet fire flow standards?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project located in close proximity to potential dangerous fire hazard conditions/uses (such as refineries, flammables, explosives manufacturing)?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the proposed use constitute a potentially dangerous fire hazard?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

### STANDARD CODE REQUIREMENTS

☒ Water Ordinance No. 7834   ☒ Fire Ordinance No. 2947   ☒ Fire Regulation No. 8

☒ Fuel Modification/Landscape Plan

☒ **MITIGATION MEASURES**

☐ **OTHER CONSIDERATIONS**

☐ Project Design   ☐ Compatible Use

*Comply with MMP for Emergency Services*

### CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **fire hazard** factors?

☐ Potentially significant impact

☒ Less than significant with project mitigation

☐ Less than significant/No

## HAZARDS - 4. Noise

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Is the project site located near a high noise source (airports, railroads, freeways, industry)?
b.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<u>Sierra Highway on the western edge of property, light industrial to the south</u> Is the proposed use considered sensitive (school, hospital, senior citizen facility) or are there other sensitive uses in close proximity?
c.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project substantially increase ambient noise levels including those associated with special equipment (such as amplified sound systems) or parking areas associated with the project?
d.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Would the project result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels without the project? <u>During construction period</u>
e.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

### STANDARD CODE REQUIREMENTS

☒ Noise Ordinance No. 11,778      ☐ Building Ordinance No. 2225--Chapter 35

☒ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size    ☐ Project Design    ☒ Compatible Use

Comply with MMP for Noise

### CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by **noise**?

☒ Potentially significant    ☒ Less than significant with project mitigation    ☐ Less than significant/No impact

## RESOURCES - 1. Water Quality

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an area having known water quality problems and proposing the use of individual water wells?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the proposed project require the use of a private sewage disposal system?
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	If the answer is yes, is the project site located in an area having known septic tank limitations due to high groundwater or other geotechnical limitations <i>or</i> is the project proposing on-site systems located in close proximity to a drainage course?
c.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Could the project's associated construction activities significantly impact the quality of groundwater and/or storm water runoff to the storm water conveyance system and/or receiving water bodies? <i>NPDES permit required</i>
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project's post-development activities potentially degrade the quality of storm water runoff and/or could post-development non-storm water discharges contribute potential pollutants to the storm water conveyance system and/or receiving bodies?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

### STANDARD CODE REQUIREMENTS

- |   |  |
|---|--|
| <input type="checkbox"/> Industrial Waste Permit                      | <input checked="" type="checkbox"/> Health Code – Ordinance No.7583, Chapter 5 |
| <input checked="" type="checkbox"/> Plumbing Code – Ordinance No.2269 | <input checked="" type="checkbox"/> NPDES Permit Compliance (DPW)              |

### ☒ MITIGATION MEASURES

- ☐ Lot Size   
 ☐ Project Design   
 ☐ Compatible Use

### ☐ OTHER CONSIDERATIONS

*Comply with MMP for Drainage and Grading. Received letter dated May 16, 2008 for positive water service feasibility, prepared by Santa Clarita Water, a Division of the Castaic Lake Water Agency (SCWD).*

### CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by, **water quality** problems?

- |   |   |  |
|---|---|--|
| <input checked="" type="checkbox"/> Potentially significant | <input checked="" type="checkbox"/> Less than significant with project mitigation | <input type="checkbox"/> Less than significant/No impact |
|---|---|--|

## RESOURCES - 2. Air Quality

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the proposed project exceed the State's criteria for regional significance (generally (a) 500 dwelling units for residential users or (b) 40 gross acres, 650,000 square feet of floor area or 1,000 employees for non-residential uses)?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the proposal considered a sensitive use (schools, hospitals, parks) and located near a freeway or heavy industrial use?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project increase local emissions to a significant extent due to increased traffic congestion or use of a parking structure or exceed AQMD thresholds of potential significance?
d.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Will the project generate or is the site in close proximity to sources that create obnoxious odors, dust, and/or hazardous emissions?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<i>During construction</i> Would the project conflict with or obstruct implementation of the applicable air quality plan?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project violate any air quality standard or contribute substantially to an existing or projected air quality violation?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under applicable federal or state ambient air quality standard (including releasing emission which exceed quantitative thresholds for ozone precursors)?
h.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

### STANDARD CODE REQUIREMENTS

☒ Health and Safety Code – Section 40506

### ☒ MITIGATION MEASURES

☐ Project Design      ☐ Air Quality Report

☐ OTHER CONSIDERATIONS

*Comply with MMP for Air Quality.*

### CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by, **air quality**?

☐ Potentially significant      ☒ Less than significant with project mitigation      ☐ Less than significant/No impact

## RESOURCES - 3. Biota

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located within Significant Ecological Area (SEA), SEA Buffer, or coastal Sensitive Environmental Resource (ESHA, etc.), or is the site relatively undisturbed and natural?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will grading, fire clearance, or flood related improvements remove substantial natural habitat areas?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is a drainage course located on the project site that is depicted on USGS quad sheets by a dashed blue line or that may contain a bed, channel, or bank of any perennial, intermittent or ephemeral river, stream, or lake?
d.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Does the project site contain a major riparian or other sensitive habitat (e.g. coastal sage scrub, oak woodland, sycamore riparian, woodland, wetland, etc.)?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<i>Nesting habitat for native birds</i> Does the project site contain oak or other unique native trees (specify kinds of trees)?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site habitat for any known sensitive species (federal or state listed endangered, etc.)?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<i>Gnatcatcher not likely to occur on site</i> Other factors (e.g., wildlife corridor, adjacent open space linkage)?

### ☒ MITIGATION MEASURES

### ☐ OTHER CONSIDERATIONS

☐ Lot Size
 ☐ Project Design
 ☐ ERB/SEATAC Review
 ☐ Oak Tree Permit

Comply with MMP for Biota.

### CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, **biotic** resources?

☒ Potentially significant
 ☒ Less than significant with project mitigation
 ☐ Less than significant/No impact

## RESOURCES - 4. Archaeological/Historical/Paleontological

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site in or near an area containing known archaeological resources or containing features (drainage course, spring, knoll, rock outcroppings, or oak trees) that indicate potential archaeological sensitivity?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain rock formations indicating potential paleontological resources?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain known historic structures or sites?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project cause a substantial adverse change in the significance of a historical or archaeological resource as defined in 15064.5?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size

☐ Project Design

☐ Phase 1 Archaeology Report

*Consulted with area tribal representatives, no negative feedback received.*

### CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on archaeological, historical, or paleontological resources?

☐ Potentially significant

☐ Less than significant with project mitigation

☒ Less than significant/No impact

## RESOURCES - 5. Mineral Resources

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?

b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project result in the loss of availability of a locally important mineral resource discovery site delineated on a local general plan, specific plan or other land use plan?
----	--------------------------	-------------------------------------	--------------------------	---

c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?
----	--------------------------	-------------------------------------	--------------------------	----------------

---

---

☐ MITIGATION MEASURES

☐ OTHER CONSIDERATIONS

☐ Lot Size

☐ Project Design

---

### CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **mineral** resources?

☐ Potentially significant

☐ Less than significant with project mitigation

☒ Less than significant/No impact

## RESOURCES - 6. Agriculture Resources

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency to non-agricultural use?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project conflict with existing zoning for agricultural use, or a Williamson Act contract?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project involve other changes in the existing environment that due to their location or nature, could result in conversion of Farmland, to non-agricultural use?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?

☐ MITIGATION MEASURES

☒ OTHER CONSIDERATIONS

☐ Lot Size

☐ Project Design

### CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **agriculture** resources?

☐ Potentially significant

☐ Less than significant with project mitigation

☒ Less than significant/No impact

## RESOURCES - 7. Visual Qualities

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site substantially visible from or will it obstruct views along a scenic highway (as shown on the Scenic Highway Element), or is it located within a scenic corridor or will it otherwise impact the viewshed?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project substantially visible from or will it obstruct views from a regional riding or hiking trail?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an undeveloped or undisturbed area that contains unique aesthetic features?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the proposed use out-of-character in comparison to adjacent uses because of height, bulk, or other features?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project likely to create substantial sun shadow, light or glare problems?
f.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors (e.g., grading or landform alteration)?  <i>Grading and hillside alteration, although disturbance has already occurred</i>

☒ **MITIGATION MEASURES**

☐ **OTHER CONSIDERATIONS**

☐ Lot Size

☐ Project Design

☐ Visual Report

☐ Compatible Use

Comply with MMP for Drainage and Grading.

### CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on scenic qualities?

☐ Potentially significant

☒ Less than significant with project mitigation

☐ Less than significant/No impact

## SERVICES - 1. Traffic/Access

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Does the project contain 25 dwelling units or more and is it located in an area with known congestion problems (mid-block or intersections)?
<hr/>				
<i>More than 25 dwelling units</i>				
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project result in any hazardous traffic conditions?
<hr/>				
c.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Will the project result in parking problems with a subsequent impact on traffic conditions?
<hr/>				
<i>During construction period</i>				
d.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Will inadequate access during an emergency (other than fire hazards) result in problems for emergency vehicles or residents/employees in the area?
<hr/>				
<i>Potential issues with security gates, see MMP</i>				
e.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Will the congestion management program (CMP) Transportation Impact Analysis thresholds of 50 peak hour vehicles added by project traffic to a CMP highway system intersection, or 150 peak hour trips added by project traffic to a mainline freeway link, be exceeded?
<hr/>				
<i>Two to three parking spaces per dwelling unit, 31 units proposed</i>				
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project conflict with adopted policies, plans, or program supporting alternative transportation (e.g., bus, turnouts, bicycle racks)?
<hr/>				
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Other factors?
<hr/>				

### ☒ MITIGATION MEASURES

☐ Project Design    ☒ Traffic Report

### ☐ OTHER CONSIDERATIONS

☒ Consultation with Traffic & Lighting Division

Comply with MMP for Emergency Services.

### CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **traffic/access** factors?

☐ Potentially significant

☒ Less than significant with project mitigation    ☐ Less than significant/No impact

## SERVICES - 2. Sewage Disposal

### SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	If served by a community sewage system, could the project create capacity problems at the treatment plant? <i>Annexation to the City of Santa Clarita required, see MMP</i>
b.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Could the project create capacity problems in the sewer lines serving the project site?

☐ MITIGATION MEASURES

☒ OTHER CONSIDERATIONS

Quimby fees

### CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **population, housing, employment, or recreational** factors?

☒ Potentially significant
 ☐ Less than significant with project mitigation
 ☒ Less than significant/No impact

## **SUMMARY OF RPC PROCEEDINGS**

### **REGIONAL PLANNING COMMISSION**

**ZONE CHANGE CASE NO. 2006-00004-(5)  
CONDITIONAL USE PERMIT CASE NO. 2006-00051-(5)  
VESTING TENTATIVE TRACT MAP NO. 066202**

The Los Angeles County Regional Planning Commission ("Commission") held a public hearing on November 5, 2008 for Zone Change Case No. 2006-00004-(5), Conditional Use Permit Case No. 2006-00051-(5) and Vesting Tentative Tract Map No. 066202. The Commission took its final action on November 5, 2008. The project proposes a subdivision of one multi-family lot with 31 detached condominium units on 8.2 gross acres. The project is located at 16838 Sierra Highway in the Sand Canyon Zoned District within the unincorporated community of Canyon Country in the Fifth Supervisorial District. The subject property is bounded by existing single-family residences on the north and east, Sierra Highway on the west and Ryan Lane on the south.

Notice of public hearing was published in the "The Signal" and "La Opinion." Additionally, notices were sent to every property owner within a 1,000-foot radius of the subject property as well as those individuals and organizations on the Department of Regional Planning's courtesy mailing lists. Public hearing signs were also posted on the subject property. The project materials, including staff report, tentative map and Exhibit "A" and environmental documentation, were made available at the following locations:

Department of Regional Planning, 320 West Temple Street, Room 1382, Los Angeles.  
Canyon Country Jo Anne Darcy Library, 18601 Soledad Canyon Road, Santa Clarita.  
Department website, <http://planning.lacounty.gov/case.htm>.

#### **November 5, 2008 Public Hearing**

Staff presented the project, which includes a request to change of zone from M-1 (Light Manufacturing) to RPD-10,000-4.1U (Residential Planned Development – 10,000 Square Feet Minimum Required Lot Area – 4.1 Dwelling Units per Net Acre). The vesting tentative map proposes to create one multi-family residential lot with 31 new detached condominium units. A conditional use permit ("CUP") to allow a planned residential development in compliance with RPD provisions including modification to building separation from 10 feet to 7.8 feet, and urban and non-urban hillside management area requirements and will restrict the development of the rezoned site to the proposed residential development as shown on the site plan marked "Exhibit A". No other development will be permitted on the property unless a conditional use permit is first obtained. A Mitigated Negative Declaration ("MND") was also prepared for the project in accordance with State and County California Environmental Quality ("CEQA") guidelines.

AGENDA ITEM  
#9a,b,c,d

PUBLIC HEARING DATE  
November 5, 2008

<b>APPLICANT</b> Centerpoint Development Partners LLC		<b>OWNER</b> CDP Sierra Highway, LLC		<b>REPRESENTATIVE</b> Centerpoint Development Partners LLC	
<b>REQUEST</b> <u>Vesting Tentative Tract Map:</u> To create one multi-family lot with 31 detached condominium units on 8.2 gross acres <u>Zone Change:</u> To change the zoning from M-1 (Light Manufacturing) to RPD-10,000-4.1U (Residential Planned Development-10,000 Square Feet Minimum Required Lot Area-4.1 Dwelling Units per Net Acre) <u>Conditional Use Permit:</u> To allow a planned residential development in compliance with RPD provisions including modification to building separation from 10 feet to 7.8 feet, and urban and non-urban hillside management area requirements.					
<b>LOCATION/ADDRESS</b> 16838 Sierra Highway, Canyon Country			<b>ZONED DISTRICT</b> Sand Canyon		
<b>ACCESS</b> Sierra Highway and Quinn Drive			<b>COMMUNITY</b> Canyon Country		
			<b>EXISTING ZONING</b> M-1 (Light Manufacturing)		
<b>SIZE</b> 8.2 acres gross/7.6 acres net	<b>EXISTING LAND USE</b> Truck Maintenance Facility		<b>SHAPE</b> Irregular	<b>TOPOGRAPHY</b> Slightly sloping to steep terrain	
<b>SURROUNDING LAND USES &amp; ZONING</b>					
<b>North:</b> Single-family residential and vacant property Residential Planned Development-10,000-1.95 Dwelling Units per Net Acre			<b>East:</b> Single-family residential/RPD-10,000-1.95U		
<b>South:</b> Single-family residential and Industrial property/ RPD-10,000-1.95U and M-1			<b>West:</b> Single-family residential and Commercial property/R-3 (Limited Multiple Residential-5,000 Square Feet Minimum Required Lot Area) and C-3 (Unlimited Commercial)		
<b>GENERAL PLAN</b>	<b>DESIGNATION</b>		<b>MAXIMUM DENSITY</b>	<b>CONSISTENCY</b>	
Santa Clarita Valley Area Plan	U2 (Urban 2 -3.4 to 6.6 DU/Ac) and HM (Hillside Management)		44 DU	Yes	
<b>ENVIRONMENTAL STATUS: RENV CASE NO. 2006-00054-(5)</b> Mitigated Negative Declaration – Impacts reduced to less than significant with project mitigation include noise, air quality, biota, drainage and grading, hazardous waste, recycling, underground storage tanks, sewer, emergency services and library mitigation fees.					
<b>DESCRIPTION OF SITE PLAN</b> The tentative map and exhibit "A," dated February 5, 2008, depict a condominium development of 31 detached units on 8.2 gross acres. The multi-family lot is 7.6 net acres, and is served by an internal private driveway and fire lane with widths ranging from 34 feet to 36 feet. Grading consists of 97,543 total cubic yards of cut and fill grading (38,524 cut, 59,019 fill) proposed to be balanced onsite, with import of 20,495 cubic yards of material. The project is required to provide 32, 208 square feet (70 percent) of open space within the hillside management area and is providing 46,011 (100 percent) of open space, and is required to provide 71,373 square feet (25 percent) of open space within the urban land use designation and is providing 79,641 square feet (28 percent) of open space. The proposed RPD zoning requires that the project provide 30 percent of net area (2.0 acres) of open space and is providing a total of 2.9 acres (43 percent) open space. Project amenities include individual private areas, community pool and 30 guest parking spaces. Units range in size from 1,615 to 2,687 square feet, each with two covered parking spaces in an attached garage. The buildings reach a maximum height of 29'-7" feet.					
<b>KEY ISSUES</b> The project proposes a zone change from M-1 (Light Manufacturing) to RPD-10,000-4.0U (Residential Planned Development-10,000 Square Feet Minimum Required Lot Area- Four Units per Net Acre). <div style="text-align: right;"><i>(If more space is required, use opposite side)</i></div>

**ADDITIONAL ISSUES AND ANALYSIS**

- A conditional use permit is requested to allow a hillside planned residential development in compliance with RPD provisions and nonurban hillside management area requirements.
- The subject property is an existing semi-truck storage facility with mainly single-family residences to the north, west and east. Single-family residences and industrial properties exist to the south. The project also provides amenities including a private community swimming pool and individual private areas. Of the project's total open area, approximately 18.9 percent will be undisturbed. Thirty guest parking spaces will be provided within the development.
